High Quality To Help You Do The Best Work

WIRE GAUGE CARBON TAPS The IRWIN Industrial Tool Co. Wire Gauge Carbon Taps are precision-engineered tools designed for gunsmiths and firearm enthusiasts to create or repair internal threads in firearm components. Crafted from high-quality carbon steel, these taps ensure durability and accurate threading, making them essential for various gunsmithing applications. These taps are available in a range of wire gauge sizes, allowing for versatility in threading different components. The carbon steel construction not only provides strength but also facilitates easy removal of broken tap fragments, as they can be shattered with a punch if necessary. Specifications: Material: Carbon steel Thread Sizes: Various wire gauge sizes Customer Insights: Users of the IRWIN Industrial Tool Co. Wire Gauge Carbon Taps appreciate their precision and reliability in threading tasks. The carbon steel construction not only provides durability but also facilitates easy removal of broken fragments, enhancing the overall user experience. The IRWIN Industrial Tool Co. Wire Gauge Carbon Taps are a valuable addition to any gunsmith's toolkit, offering precise threading capabilities and robust construction for reliable performance.

Attributes

- Name: [IRWIN INDUSTRIAL TOOL CO. WIRE GAUGE CARBON PLUG TAP 10-32 THREADS](#)
- Manufacturer: [IRWIN INDUSTRIAL TOOL CO.](#)
- Product no.: 395103202
- Mfr. No.: 1131
- Material: Carbon Steel
- Style: Plug
- Threads: 10-32
- Delivery weight: 0.005kg
- Shipping width: 83mm
- Shipping length: 146mm

Safety Instruction Guide for IRWIN Industrial Tool Co. Wire Gauge Carbon Taps

Introduction

Thank you for choosing the IRWIN Industrial Tool Co. Wire Gauge Carbon Taps. These precisionengineered tools are designed for gunsmiths and firearm enthusiasts to create or repair internal threads in firearm components. This guide provides essential safety instructions to ensure your safe and effective use of the product, in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the safety instructions before using the product.
- Ensure that the work area is clean and welllit to avoid accidents.
- Keep the taps out of reach of children and vulnerable individuals.
- Use the taps only for their intended purpose as specified in this guide.
- Regularly inspect the taps for any signs of damage or wear before use.
- If you notice any defects, do not use the taps and contact a qualified professional for assistance.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), including gloves and safety goggles, to protect against potential injuries.
- Ensure proper handling to avoid injury from sharp edges.
- Use taps in a stable and secure manner to prevent slipping or misalignment.
- Do not apply excessive force when using the taps, as this may lead to breakage or injury.
- Be cautious of broken tap fragments; they can be removed with a punch if necessary.
- Ensure that the workpiece is securely clamped to prevent movement during the threading process.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure that the workpiece is clean and free from debris.

2. Selecting the Right Tap:

- Choose the appropriate wire gauge size for your specific threading task.

3. Drilling the Hole:

- Before using the tap, drill a pilot hole in the workpiece that matches the tap's thread size.
- Ensure that the drill is aligned properly to create a straight hole.

4. Tapping Process:

- Insert the tap into the drilled hole and turn it clockwise to begin cutting the threads.
- Apply steady, even pressure while turning the tap, ensuring it remains aligned with the hole.
- If resistance is felt, back the tap out slightly to clear any debris before continuing.

5. Completing the Threading:

- Once the desired depth is reached, carefully remove the tap by turning it counterclockwise.
- Inspect the threaded hole for any imperfections or debris.

6. PostUse Care:

- Clean the taps after use to prevent rust and maintain their performance.
- Store the taps in a safe and dry location, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any broken or unusable taps in accordance with local regulations.
- Do not dispose of taps in regular household waste; check with local authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the IRWIN Industrial Tool Co. Wire Gauge Carbon Taps, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions, you can ensure a safe and effective experience while using the IRWIN Industrial Tool Co. Wire Gauge Carbon Taps. Thank you for your attention to safety, and enjoy your gunsmithing projects.
