High Quality To Help You Do The Best Work

WIRE GAUGE CARBON TAPS The IRWIN Industrial Tool Co. Wire Gauge Carbon Taps are precision-engineered tools designed for gunsmiths and firearm enthusiasts to create or repair internal threads in firearm components. Crafted from high-quality carbon steel, these taps ensure durability and accurate threading, making them essential for various gunsmithing applications. These taps are available in a range of wire gauge sizes, allowing for versatility in threading different components. The carbon steel construction not only provides strength but also facilitates easy removal of broken tap fragments, as they can be shattered with a punch if necessary. Specifications: Material: Carbon steel Thread Sizes: Various wire gauge sizes Customer Insights: Users of the IRWIN Industrial Tool Co. Wire Gauge Carbon Taps appreciate their precision and reliability in threading tasks. The carbon steel construction not only provides durability but also facilitates easy removal of broken fragments, enhancing the overall user experience. The IRWIN Industrial Tool Co. Wire Gauge Carbon Taps are a valuable addition to any gunsmith's toolkit, offering precise threading capabilities and robust construction for reliable performance.

Attributes

- Name: [IRWIN INDUSTRIAL TOOL CO. WIRE GAUGE CARBON TAPER TAP 8-32 THREADS](#)
- Manufacturer: [IRWIN INDUSTRIAL TOOL CO.](#)
- Product no.: 395832001
- Mfr. No.: 1024
- Material: Carbon Steel
- Style: Taper
- Threads: 8-32
- Delivery weight: 0.005kg
- Shipping width: 83mm
- Shipping length: 146mm

Safety Instruction Guide for WIRE GAUGE CARBON TAPS

Introduction

Thank you for choosing the WIRE GAUGE CARBON TAPS by IRWIN INDUSTRIAL TOOL CO. These precisionengineered tools are designed for creating or repairing internal threads in firearm components. This guide provides essential safety instructions to ensure the safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the instructions before using the taps.
- Keep the taps out of reach of children and vulnerable individuals.
- Inspect the taps for any damage or wear before use.
- Use the taps only for their intended purpose as specified in the product description.
- Follow all local laws and regulations regarding firearms and gunsmithing.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, while using the taps.
- Ensure that the work area is clean and welllit to prevent accidents.
- Use the taps with a suitable tap wrench to maintain control during the threading process.
- Avoid excessive force when using the taps to prevent breakage or injury.
- If a tap breaks, do not attempt to remove it without proper tools or techniques; consult a professional if needed.
- Be cautious of sharp edges and points on the taps to prevent cuts or injuries.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a tap wrench, drill, and appropriate cutting oil.
- Ensure the workpiece is securely clamped or held in place to prevent movement.

2. Drilling the Hole:

- Use a drill bit that matches the size of the tap's thread diameter.
- Drill the hole to the recommended depth for the tap size being used.

3. Applying Cutting Oil:

- Apply a few drops of cutting oil to the tap to facilitate smooth cutting and reduce friction.

4. Tapping the Thread:

- Insert the tap into the hole and align it properly.
- Use the tap wrench to turn the tap clockwise while applying gentle downward pressure.
- After every full turn, back the tap out slightly to clear any debris from the threads.
- Continue until the desired depth is reached.

5. Removing the Tap:

- Carefully unscrew the tap from the hole, ensuring not to force it.
- Clean the newly tapped threads with a brush to remove any debris.

Disposal Instructions

- Dispose of any broken or damaged taps in accordance with local regulations.
- Do not throw taps in regular household waste; consider recycling options if available.
- Ensure that any sharp fragments are safely contained to prevent injury during disposal.

Contact Information for Further Support

For any inquiries or additional support regarding the WIRE GAUGE CARBON TAPS, please refer to the manufacturer's contact details provided in the product packaging or documentation.

By following these safety instructions, you can ensure a safe and effective experience with the WIRE GAUGE CARBON TAPS. Thank you for prioritizing safety in your gunsmithing activities.
