High Quality To Help You Do The Best Work

WIRE GAUGE CARBON DIES The Brownells Wire Gauge Carbon Dies are essential tools for gunsmiths and firearm enthusiasts, designed to cut precise external threads on various firearm components. Made from high-quality carbon steel, these dies ensure durability and accuracy in threading operations. These dies are available in a range of wire gauge sizes, accommodating diverse threading needs. Each die features a 13/16" outer diameter, making them compatible with standard die stocks. The use of carbon steel allows for easy removal of broken die fragments, as they can be shattered with a punch if necessary. Specifications: Material: Carbon steel Outer Diameter: 13/16" Thread Sizes: Various wire gauge sizes Customer Insights: Users of the Brownells Wire Gauge Carbon Dies appreciate their precision and reliability in threading tasks. The carbon steel construction not only provides durability but also facilitates easy removal of broken fragments, enhancing the overall user experience. The Brownells Wire Gauge Carbon Dies are a valuable addition to any gunsmith's toolkit, offering precise threading capabilities and robust construction for reliable performance.

Safety Instruction Guide for Brownells Wire Gauge Carbon Dies

Introduction

Thank you for choosing the Brownells Wire Gauge Carbon Dies. These tools are designed for precise threading operations on various firearm components. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always keep the dies out of reach of children and vulnerable individuals.
- Inspect the dies before each use for any signs of damage or wear.
- Use the dies only for their intended purpose as specified in the product description.
- Wear appropriate personal protective equipment (PPE) such as safety goggles and gloves while using the dies.
- Ensure that your workspace is clean, organized, and welllit to prevent accidents.
- Be aware of your surroundings and ensure that no one is in close proximity while using the dies.

Specific Safety Precautions for Use

- Handle the dies with care to avoid injury from sharp edges.
- Do not attempt to modify or alter the dies in any way.
- If a die becomes stuck, do not force it out. Instead, seek assistance or refer to the manufacturer's guidelines for safe removal.
- In the event of a broken die, use a punch to shatter the fragment carefully, ensuring that you are wearing appropriate PPE.
- Always follow the threading guidelines specific to the wire gauge size you are using.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including die stock and cutting oil.
- Ensure that the workpiece is securely clamped in place.

2. Installing the Die:

- Select the appropriate wire gauge carbon die for your threading needs.
- Insert the die into the die stock, ensuring it is properly aligned.
- Tighten the die securely in the stock.

3. Using the Die:

- Apply cutting oil to the workpiece and the die to facilitate smooth threading.
- Position the die at a right angle to the workpiece.
- Turn the die stock clockwise to begin cutting the threads.
- Apply consistent and even pressure while turning the die.
- If resistance is felt, back the die out slightly and reapply cutting oil.

4. Finishing the Threading:

- Once the desired depth of threading is achieved, carefully remove the die from the workpiece.

- Clean the threaded area to remove any debris or cutting oil.

Disposal Instructions

- Dispose of any broken die fragments in accordance with local waste disposal regulations.
- Do not throw dies in regular trash; check for recycling options for metal components if available.
- Ensure that any packaging materials are disposed of responsibly, following local recycling guidelines.

Contact Information for Further Support

For any safety inquiries or support related to the Brownells Wire Gauge Carbon Dies, please reach out to the designated contact point provided with your product.

By following these safety instructions, you can ensure a safe and effective experience with your Brownells Wire Gauge Carbon Dies. Always prioritize safety and consult professionals if you are unsure about any procedures. Thank you for your attention to these guidelines.
