[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

The success of Ruger's® takedown 10-22® gave Hogue an opportunity to bring something new to the party in OverMolded® stocks. They've introduced two different takedown designs in their popular OverMolded rubber: a traditional "Sporter" style rifle stock – similar in appearance to our popular one-piece 10/22® rifle stock; and a "Tactical Thumbhole" model featuring a futuristic thumbhole/pistol grip design, an integrated cheek weld, a unique bench rest hook and a soft rubber butt pad. The Tactical Thumbhole design is designed for quick and comfortable target acquisition with your preferred optic, while fans of open sights may prefer our traditional 'Sporter' rifle stock design. All Hogue stocks feature the popular OverMolded Rubber – a durable, comfortable, superior, recoil-taming material that's impervious to dirt, grime and moisture.
