A Big Boost to Comfort & Control When Shooting Your Big SIG

Hogue's HandALL slip-on grip is a fast, simple, inexpensive upgrade that really improves the comfort and controllability of your SIG P320. It's made of Hogue's ultra-tough, pebble-textured synthetic rubber material, and it simply slips over your P320's existing grip. OK, "simple slips" might be an understatement: once installed, the HandALL fits VERY securely on the pistol's grip. You'll need to heat it up and stretch it a bit to slide it on. Once on, it's natural elasticity holds it in place so it won't slip, even under full recoil during rapid fire. Once installed on your SIG P320, the HandALL provides the comfortable, hand-filling fit and cushioning from recoil that Hogue's rubber grips are famous for. The pebble surface texture and finger grooves prevent your hold from shifting, while HandALL's beavertail extension protects the base of your thumb from recoil battering by the P320's frame. Super-tough synthetic rubber is highly resistant to heat, cold, UV & solvents

Straightforward slip-on installation Remove the HandALL any time Fits full-size SIG P320 grip frame Straight from the box, SIG P320 is a robust, reliable, pleasant-shooting pistol. Add a Hogue HandALL and enjoy shooting it even more!

Safety Instruction Guide for SIG SAUER P320 HANDALL GRIP SLEEVE

Introduction

Thank you for choosing the SIG SAUER P320 HANDALL GRIP SLEEVE by Hogue. This product is designed to enhance the comfort and controllability of your SIG P320 while ensuring a secure grip during use. Please read this safety instruction guide carefully to ensure safe and effective use of your new grip sleeve.

General Safety Guidelines

- Always ensure that the firearm is unloaded before installing or handling the grip sleeve.
- Use the grip sleeve only with the SIG P320 model to avoid compatibility issues.
- Inspect the grip sleeve regularly for any signs of wear or damage.
- Keep the grip sleeve away from extreme temperatures, chemicals, and solvents that may degrade the material.
- Store the grip sleeve in a cool, dry place when not in use.
- Keep the product out of reach of children and vulnerable individuals.

Specific Safety Precautions for Use

- Ensure that your hands are dry and clean before installation to prevent slippage.
- Avoid using excessive force when installing the grip sleeve, as this may damage both the sleeve and the firearm.
- Be cautious of the beavertail extension; ensure it is properly positioned to protect your thumb from recoil.
- Always practice safe firearm handling techniques while using the SIG P320 with the grip sleeve installed.
- If you experience any discomfort or difficulty in handling the firearm, discontinue use of the grip sleeve immediately.

Instructions for Installation and Usage

1. Preparation

- Ensure the SIG P320 is unloaded.
- Clean the grip area of the firearm to remove any dirt or oil.

2. Installation

- Gently heat the grip sleeve using a heat gun or hairdryer to make it more pliable. Be careful not to overheat.
- Align the grip sleeve with the grip of the SIG P320.
- Carefully stretch the sleeve over the grip, starting from the bottom and working your way up.
- Ensure that the sleeve fits snugly and securely around the grip.

3. PostInstallation

- Once installed, check that the grip sleeve is firmly in place and does not shift during handling.
- Familiarize yourself with the feel of the grip sleeve and practice handling the firearm in a safe environment.

Disposal Instructions

- Dispose of the grip sleeve in accordance with local regulations for rubber products.
- Do not incinerate, as this may release harmful substances into the environment.
- If the grip sleeve is damaged or no longer usable, consider recycling options where available.
