

# BUNGEE RETENTION KIT - SPIRITUS SYSTEMS BUNGEE RETENTION KIT - RANGER GREEN

[Shooting Accessories](#) > [Tactical Gear](#) > [Accessories](#)

The Revic FH1 Fluid Head is extremely compact and lightweight, combining beautiful design and ergonomic functionality. The aircraft-grade CNC machined and hard anodized aluminum components offer excellent smoothness, stability and durability. The compact size and ease of operation make it ideally suited for field work where size, weight and durability are key. The Bungee Retention Kit is a simple way to add an additional layer of retention to magazines. Simply route the shock cord through the tabs and secure the two running ends with a square knot. Sold in a set of 3.

# Bungee Retention Kit Safety Instructions

## Introduction

Thank you for choosing the Bungee Retention Kit by Spiritus Systems. This product is designed to provide an additional layer of retention for magazines, ensuring secure and reliable performance. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for wear and damage before each use.
- Do not modify the product in any way that may compromise its safety.
- Follow all installation and usage instructions provided in this guide.

## Specific Safety Precautions for Use

- Always check that the shock cord is securely routed through the tabs before use.
- Ensure that the two running ends of the shock cord are properly secured with a square knot to prevent accidental release.
- Avoid using the product in extreme weather conditions that may affect its performance.
- Do not use the product if any components are damaged or missing.
- Be cautious of any sharp edges during installation and handling.

## Instructions for Installation and Usage

1. **Unpack the Kit:** Open the package and ensure all components are present. The kit includes three bungee retention cords.
2. **Route the Shock Cord:**
  - Take one bungee cord and locate the tabs on the magazine.
  - Route the shock cord through the tabs in a manner that ensures it sits securely.
3. **Secure the Cord:**
  - Bring the two ends of the shock cord together.
  - Tie a square knot to secure the ends firmly. Ensure the knot is tight to prevent slipping.
4. **Repeat:** If using multiple bungee cords, repeat steps 2 and 3 for each cord.
5. **Test the Retention:** Before using the magazine in the field, conduct a test to ensure that the bungee retention is secure and functioning as intended.

## Disposal Instructions

- Dispose of the product responsibly.
- If the product is no longer usable, follow local regulations for disposal of nonbiodegradable materials.
- Do not dispose of the product in regular household waste if it contains materials that can be recycled.

## Contact Information for Further Support

For any safety inquiries or further support regarding the Bungee Retention Kit, please contact the manufacturer's customer service or refer to the product's packaging for additional details.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
