

# ASSAULT BACK PANEL CORE - SPIRITUS SYSTEMS ASSAULT BACK PANEL CORE , COYOTE BROWN

[Home](#)

The top of the Panel features a custom double pull, separating zipper. This zipper serves three purposes. It allows the Flaps to be completely removed from the Core and swapped out. It allows communication antennas and other items such as cabling, hydration tubes, and breaching tools to be routed into and out of the top of the panel. It provides quick access to the inside of the panel without lifting the entire Flap. The Assault Panel Core also has three direction snaps to hold Flaps securely on and to keep tools held inside the panel. The Assault Panel Core features 4 external attachment zippers. These zippers allow the panel to be worn in three configurations. Configuration 1 uses the top zippers to attach the panel to the plate bag. This compresses the panel and allows the panel to be worn in a "light" configuration. This configuration of the panel is great for assaulters who want a streamlined and tight configuration and only need to carry things like a small hydration bladder, slap charges, flash bangs and GP kit on their backs. Configuration 2 uses the bottom zippers to attach the panel to the plate bag. This configuration gives the user much more capacity and configures the panel into more of a backpack. This provides the same features as Configuration 1, but with the added volume for bulky items such as radios, cold weather gear, poll less litters, etc. Configuration 3 also uses the bottom zippers to attach to the rear plate bag, but introduces the bottom expansion as well. This expansion offers the ability to carry longer tools and store even more bulky items in the expanded space. The Assault Panel Core comes standard with a permanently affixed large GP pocket on the lower half. This pocket is velcro lined for attachment of accessory items. It features a total of two tie down locations inside the pouch for securing sensitive equipment. The front of the pouch features a zippered stash pocket for organizing smaller, commonly needed items. This pocket also has a 4" x 5" Velcro Field for attaching identification patches. Behind the GP pocket is a hidden stash compartment. This is used for storing the lower half of slap charges or breach pens when they are passed through the flaps above. It can also be used to stash E&E equipment or smaller personal items. Each side of the panel features six tie down loops for securing longer items external to the panel. These loops are great for attaching Tri-Fold or Bi-Fold charges or other tall items. The bottom expansion has a G-Hook internal to the panel that allows you to secure it in place if a heavier load needs to be carried inside, but you do not want the expansion to deploy inadvertently. Fitment Guide Medium Overt Plate Bags - Fits Large Overt Plate Bags - Fits, could use an XL Adapter if you have very thick plates, and are overloading the panel. Extra Large Overt Plate Bags - Needs an XL Adapter to be compatible with the XL Plate Bags. Some images shown with optional accessories, sold separately.

## Attributes

- Name: [SPIRITUS SYSTEMS ASSAULT BACK PANEL CORE , COYOTE BROWN](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430100551

# Safety Instruction Guide for ASSAULT BACK PANEL CORE

## Introduction

Thank you for choosing the ASSAULT BACK PANEL CORE by Spiritus Systems. This guide provides essential safety instructions to ensure the safe use and optimal performance of your product. Please read this guide carefully before use.

## General Safety Guidelines

To ensure your safety and the safety of others, please adhere to the following general safety guidelines:

- Ensure that the panel is used as intended and according to the instructions provided.
- Regularly inspect the panel for any signs of wear or damage before use.
- Do not overload the panel beyond its intended capacity to avoid accidents or injuries.
- Keep the panel away from sharp objects that may cause damage.
- Store the panel in a dry, cool place when not in use.
- Avoid using the panel in extreme weather conditions that may affect its performance.

## Specific Safety Precautions for Use

When using the ASSAULT BACK PANEL CORE, please observe the following precautions:

- Always secure all items within the panel to prevent them from shifting during movement.
- Ensure that all zippers and snaps are properly closed before engaging in any activities.
- Be cautious when routing communication antennas and other items through the panel to avoid entanglement.
- If using the bottom expansion feature, ensure it is securely fastened to prevent accidental deployment.
- Keep the panel away from children or vulnerable individuals to avoid misuse or injury.

## Instructions for Installation and Usage

Follow these steps for proper installation and usage of the ASSAULT BACK PANEL CORE:

### Installation

#### 1. Attach the Panel to the Plate Bag:

- **Configuration 1:** Use the top zippers to attach the panel to the plate bag for a "light" configuration.
- **Configuration 2:** Use the bottom zippers to attach the panel for increased capacity, suitable for bulkier items.
- **Configuration 3:** Use the bottom zippers and the bottom expansion for carrying longer tools and additional items.

#### 2. Secure Flaps:

- Use the three direction snaps to hold the flaps securely in place.

#### 3. Adjust the GP Pocket:

- Ensure the large GP pocket is affixed properly and that the Velcro lining is secure for accessory attachments.

## Usage

- **Accessing Items:**

- Utilize the zippered stash pocket at the front for organizing smaller items.
- Use the hidden stash compartment behind the GP pocket for storing sensitive equipment or personal items.

- **Securing Items:**

- Use the six tiedown loops on each side of the panel to secure longer items externally.

- **Using the Bottom Expansion:**

- If carrying a heavier load, use the internal GHook to secure the bottom expansion in place.

## Disposal Instructions

When the ASSAULT BACK PANEL CORE reaches the end of its life cycle, please follow these disposal instructions:

- Dispose of the panel in accordance with local regulations regarding textile waste.
- Remove all accessories and items before disposal.
- If the panel is damaged, consider recycling options or contact local waste management for guidance.

## Contact Information for Further Support

For any inquiries regarding safety, product use, or support, please refer to the EU contact point provided by the manufacturer or consult the product's official website.

## Conclusion

By following the guidelines and instructions provided in this safety instruction guide, you can ensure a safe and effective experience with your ASSAULT BACK PANEL CORE. Always prioritize safety and proper usage to maximize the benefits of your product.
