

# ASSAULT BACK PANEL CORE - SPIRITUS SYSTEMS ASSAULT BACK PANEL CORE, RANGER GREEN

[Home](#)

The top of the Panel features a custom double pull, separating zipper. This zipper serves three purposes. It allows the Flaps to be completely removed from the Core and swapped out. It allows communication antennas and other items such as cabling, hydration tubes, and breaching tools to be routed into and out of the top of the panel. It provides quick access to the inside of the panel without lifting the entire Flap. The Assault Panel Core also has three direction snaps to hold Flaps securely on and to keep tools held inside the panel. The Assault Panel Core features 4 external attachment zippers. These zippers allow the panel to be worn in three configurations. Configuration 1 uses the top zippers to attach the panel to the plate bag. This compresses the panel and allows the panel to be worn in a "light" configuration. This configuration of the panel is great for assaulters who want a streamlined and tight configuration and only need to carry things like a small hydration bladder, slap charges, flash bangs and GP kit on their backs. Configuration 2 uses the bottom zippers to attach the panel to the plate bag. This configuration gives the user much more capacity and configures the panel into more of a backpack. This provides the same features as Configuration 1, but with the added volume for bulky items such as radios, cold weather gear, poll less litters, etc. Configuration 3 also uses the bottom zippers to attach to the rear plate bag, but introduces the bottom expansion as well. This expansion offers the ability to carry longer tools and store even more bulky items in the expanded space. The Assault Panel Core comes standard with a permanently affixed large GP pocket on the lower half. This pocket is velcro lined for attachment of accessory items. It features a total of two tie down locations inside the pouch for securing sensitive equipment. The front of the pouch features a zippered stash pocket for organizing smaller, commonly needed items. This pocket also has a 4" x 5" Velcro Field for attaching identification patches. Behind the GP pocket is a hidden stash compartment. This is used for storing the lower half of slap charges or breach pens when they are passed through the flaps above. It can also be used to stash E&E equipment or smaller personal items. Each side of the panel features six tie down loops for securing longer items external to the panel. These loops are great for attaching Tri-Fold or Bi-Fold charges or other tall items. The bottom expansion has a G-Hook internal to the panel that allows you to secure it in place if a heavier load needs to be carried inside, but you do not want the expansion to deploy inadvertently. Fitment Guide Medium Overt Plate Bags - Fits Large Overt Plate Bags - Fits, could use an XL Adapter if you have very thick plates, and are overloading the panel. Extra Large Overt Plate Bags - Needs an XL Adapter to be compatible with the XL Plate Bags. Some images shown with optional accessories, sold separately.

## Attributes

- Name: [SPIRITUS SYSTEMS ASSAULT BACK PANEL CORE, RANGER GREEN](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430100553

## ASSAULT BACK PANEL CORE RANGER GREEN

### Introduction

Thank you for choosing the ASSAULT BACK PANEL CORE by SPIRITUS SYSTEMS. This product is designed for versatility and functionality in tactical environments. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

### General Safety Guidelines

- **Product Safety:** Ensure safe use of the ASSAULT BACK PANEL CORE by following all instructions and guidelines provided. This product is designed for nonfood use and should not be used for purposes other than intended.
- **Enhanced Recalls:** In the event of a product recall, you may receive standardized recall notices and remedies at no cost. Always stay informed about product recalls.
- **Online Shopping:** When purchasing online, ensure that the retailer meets the safety requirements outlined by the EU GPSR.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of minors.
- **EU Contact Point:** For safety inquiries, refer to the manufacturer's contact information provided on the product packaging or the official website.
- **Rapid Alerts:** Stay updated on unsafe products through the EU's Safety Gate platform.

### Specific Safety Precautions for Use

- **Hazard Identification:**
  - Ensure that the panel is securely attached before use to avoid accidental detachment.
  - Be cautious of sharp edges when handling the zippers and snaps.
  - Avoid overloading the panel beyond its intended capacity to prevent structural failure.
- **Avoiding Hazards:**
  - Regularly inspect the panel for wear and tear before each use.
  - Do not use the panel if any part is damaged or malfunctioning.
  - Ensure that all items stored within the panel are properly secured to prevent shifting during movement.

### Instructions for Installation and Usage

#### 1. Configuration Setup:

- **Configuration 1:** Use the top zippers to attach the panel to the plate bag for a "light" configuration. Ideal for carrying minimal items.
- **Configuration 2:** Use the bottom zippers to attach the panel for increased capacity, resembling a backpack.
- **Configuration 3:** Also use the bottom zippers, but with the bottom expansion for carrying longer tools and bulky items.

#### 2. Attaching Flaps:

- Utilize the custom double pull zipper to remove and swap Flaps as needed.

- Ensure that the Flaps are properly secured using the three direction snaps.

### **3. Using the GP Pocket:**

- The GP pocket is designed for accessory items and features tie down locations for securing sensitive equipment.
- Use the zippered stash pocket for organizing smaller items and attach identification patches to the Velcro field.

### **4. Storing Items:**

- Utilize the hidden stash compartment behind the GP pocket for storing items like slap charges or breach pens.
- Use the six tie down loops on each side of the panel for securing longer items.

### **5. Bottom Expansion:**

- If carrying a heavier load, secure the bottom expansion with the GHook to prevent accidental deployment.

## **Disposal Instructions**

- Dispose of the ASSAULT BACK PANEL CORE in accordance with local regulations for textile and plastic waste.
- If the product is damaged beyond repair, consider recycling the materials where possible.

## **Contact Information for Further Support**

For any inquiries or support regarding the ASSAULT BACK PANEL CORE, please refer to the manufacturer's contact information found on the product packaging or their official website.

By following these guidelines and instructions, you can ensure the safe and effective use of the ASSAULT BACK PANEL CORE. Thank you for your attention to these safety measures.
