NOTE: This LV/119 Cummerbund is designed for use with a front O V E R T and rear O V E R T or C O V E R TLV/119 plate bag. The TUBES™ MOLLE Cummerbund was designed to be a lightweight and simple load carriage solution for the LV/119 series of vests. Using the widely adopted MOLLE system, the cummerbund offers almost infinite configurations for mission needs by utilizing any MOLLE accessory that can be found on the market. The cummerbund is designed to allow simultaneous use of the same MOLLE cell for products mounted on the inside and outside of the cummerbund. The TUBES™ MOLLE Cummerbund is a great option for those who are in and out of their vest frequently and have experienced wear and tear on their Velcro attachment vests. It is also a great option for those who are wearing their equipment in and around water. The TUBES™ MOLLE Cummerbund features the officially licensed First Spear TUBES™ Attachments systems developed by and officially licensed from First Spear. The TUBES™ MOLLE Cummerbund is Berry Amendment Compliant materials sourced from industry leaders in textiles manufacturing. Cummerbund Attachment The cummerbund attachment is a proprietary system that allows for the use of all of our cummerbunds, as well as allowing for a wide range of adjustment. The cummerbund attaches inside the plate bag, which is advantageous for a few reasons. There is no external mounting that can get snagged or rip off when exiting vehicles in haste. The design creates a smooth profile when worn underneath clothing. Velcro is not utilized as an attachment method on the rear plate bag. Velcro wears out over time and is a generally less-than-optimal attachment method when not supported in other ways. Velcro doesn't handle weight well and it sticks to everything, especially cloth seats. Every front plate bag comes standard with sewn loops on the sides for attaching First Spear TUBES™ for use with our TUBES™ cummerbund. Sizing The cummerbund comes in two sizes: Size 1 and Size 2, each offering up to 14 inches of total adjustment. This allows for a proper fitment for a wide variety of body types. To figure our appropriate sizing, take measurement of the waist at the belly button. When measuring, users should dress as they would while actually wearing the carrier. For example, if the user is operating in arctic environments, they should be wearing cold weather equipment when measuring. Size 1: 28" to 42" Size 2: 40" to 54" If your waist measurement is 42", we suggest going up to the Size 2 cummerbund. SOLD AS A SET. NOTE: The LV119 Cummerbund is part of the LV119 Plate Carrier System. This item does not include a Front Plate Bag, Rear Plate Bag, Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

MOLLE TUBES Cummerbund Safety Instruction Guide

Introduction

Thank you for choosing the MOLLE TUBES Cummerbund from Spiritus Systems. This product is designed to enhance your load carriage experience while ensuring safety and comfort. This guide contains important safety information, usage instructions, and disposal guidelines to help you use the cummerbund effectively and safely.

General Safety Guidelines

- **Product Safety:** Ensure that the cummerbund is used according to the instructions provided. This product is designed for load carriage and should not be used for any unintended purposes.
- **Age Restrictions:** This product is intended for adult users. Keep out of reach of children to prevent any accidents or misuse.
- **Inspection:** Regularly inspect the cummerbund for signs of wear and tear. If you notice any damage, discontinue use immediately.
- **Proper Fit:** Ensure that the cummerbund is properly fitted to your body size to avoid any safety risks associated with improper use.
- **Environmental Conditions:** Avoid using the cummerbund in extreme conditions unless it is specifically designed for such environments.

Specific Safety Precautions for Use

- **Weight Distribution:** Ensure that weight is evenly distributed across the cummerbund to prevent strain or discomfort.
- **Avoid Snags:** Be cautious of sharp objects or surfaces that may snag the cummerbund, potentially causing it to tear or become damaged.
- **Water Use:** While the cummerbund can be used in and around water, ensure that it is dried properly after exposure to prevent mold or mildew.
- **No Velcro Attachments:** Avoid using Velcro attachments on the rear plate bag, as this may lead to wear and reduced effectiveness over time.
- **Adjustments:** Make adjustments to the cummerbund only when it is not in use to ensure safety during operation.

Instructions for Installation and Usage

1. **Sizing:** Determine your size by measuring your waist at the belly button. Refer to the following size chart:
 - Size 1: 28" to 42"
 - Size 2: 40" to 54" If your waist measurement is at the upper limit of Size 1, consider moving to Size 2 for a better fit.
2. **Attachment:**
 - Locate the sewn loops on the sides of the front plate bag.
 - Attach the First Spear TUBES™ to the loops, ensuring they are secured properly.
3. **Fitting:**
 - Put on the cummerbund inside the plate bag.
 - Adjust the cummerbund to achieve a snug yet comfortable fit.

- Ensure that the cummerbund does not restrict movement or create discomfort.

4. **Usage:**

- Use the cummerbund as part of the LV119 Plate Carrier System.
- Ensure all additional components, such as front and rear plate bags, are properly secured and in good condition before use.

Disposal Instructions

- **Material Disposal:** Dispose of the cummerbund in accordance with local regulations for textile waste.
- **Environmental Considerations:** Do not dispose of the cummerbund in waterways or natural habitats. Instead, use designated waste disposal facilities.
- **Recycling:** If possible, consider recycling the materials according to local recycling guidelines.
