

MICRO FIGHT CHASSIS - SPIRITUS SYSTEMS MICRO FIGHT CHASSIS MK5 - COYOTE BROWN

[Shooting Accessories](#) > [Tactical Gear](#) > [Chest Rigs](#)

The Micro Fight Chassis MkV is a small and lightweight chassis that can be used as either a standalone magazine placard on a plate carrier, or the central hub for a chest rig when other Spiritus Systems components are used. The MkV is a single cell placard-style chassis that is built with all-new materials and manufacturing processes. The design features MOLLE on the front and sides to accommodate additional magazine pouches. Tourniquets and other equipment can also be stowed outboard with our universal retention kit, and a row of anchor points along the top opening will interface with our magazine bungee retention kit to secure any caliber of weapon. The main cell of the MkV Chassis is lined with loop Velcro on both sides and will accommodate all of Spiritus Systems' magazine inserts. Versatile and Scalable The Micro Fight Chest Rig MkV will interface with the whole line of Spiritus Systems chest rig and plate carrier components. The footprint of the MkV is identical to the Mk4 and will seamlessly connect with Expander Wings, LV/119 plate bags, and the Thing 1 and Thing 2. The MkV is extremely capable as a low-bulk solution for environments where space and weight command a premium. However, the product's modularity and compatibility with all Spiritus Accessories allow the micro fight to scale from a minimalistic magazine carrier to a full-fledged plate carrier system, or various sustainment and comms-focused chest rigs. The CCS Pouch The MkV can be combined with its companion product, the CCS Pouch. The CCS pouch is a full-featured GP Pouch that vastly improves upon the legacy front cell's functionality, and storage capacity. For those that do not need a GP Pouch solution, the MkV's MOLLE front will accept any 3rd party magazine holders or other pouches

Attributes

- Name: [SPIRITUS SYSTEMS MICRO FIGHT CHASSIS MK5 - COYOTE BROWN](#)

Safety Instruction Guide for MICRO FIGHT CHASSIS SPIRITUS SYSTEMS MICRO FIGHT CHASSIS MK5 COYOTE BROWN

Introduction

Thank you for choosing the Micro Fight Chassis MkV by Spiritus Systems. This product is designed to provide versatility and functionality for carrying magazines and equipment securely. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- **Product Safety:** This product is designed to be safe for use when following the provided guidelines. Ensure that you understand all safety instructions before use.
- **Enhanced Recalls:** In the event of a safety issue, recall notices will be standardized, and remedies will be provided free of charge.
- **Online Shopping:** When purchasing this product online, ensure that the retailer complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** Extra care should be taken when using this product around children or vulnerable individuals.
- **EU Contact Point:** For any safety inquiries, please refer to the appropriate EU contact points as needed.
- **Rapid Alerts:** Stay informed about any unsafe products through the EU's Safety Gate system.

Specific Safety Precautions for Use

- Ensure that the Micro Fight Chassis MkV is used only for its intended purpose as a magazine placard or as part of a chest rig.
- Regularly inspect the chassis for any signs of wear or damage before each use.
- Do not overload the chassis beyond its intended capacity, as this may compromise safety and functionality.
- Keep the chassis away from heat sources and sharp objects to prevent damage.
- If you notice any unusual behavior during use, discontinue use immediately and inspect the product.
- Store the chassis in a dry, cool place when not in use to maintain its integrity.

Instructions for Installation and Usage

1. Installation:

- Attach the Micro Fight Chassis MkV to your plate carrier or chest rig using the MOLLE system. Ensure that it is securely fastened to avoid accidental detachment.
- If using the CCS Pouch, attach it according to the specific instructions provided with that product.

2. Usage:

- Load magazines into the designated slots of the chassis, ensuring they are seated properly.
- Utilize the loop Velcro lining to secure any additional inserts as needed.
- Use the anchor points along the top opening for securing any bungee retention kits.
- For added equipment, use the universal retention kit to stow items outboard.
- Ensure that all equipment is secured before moving or engaging in any activities.

Disposal Instructions

- When disposing of the Micro Fight Chassis MkV, ensure that it is done in accordance with local waste management regulations.
- Avoid burning the product, as it may release harmful substances.
- If possible, recycle materials in accordance with recycling guidelines for textiles and plastics.

Contact Information for Further Support

For any questions or concerns regarding the use and safety of the Micro Fight Chassis MkV, please reach out to the designated customer support channels available through your point of purchase.

By following these guidelines, you can ensure a safe and effective experience with your Micro Fight Chassis MkV. Thank you for your attention to safety.
