

LID SNAKE - SPIRITUS SYSTEMS LID SNAKE ANVIS - MULTICAM BLACK

[Shooting Accessories](#) > [Tactical Gear](#) > [Accessories](#)

Lid Snake ANVIS The Spiritus Systems Lid Snake was designed for anybody using night vision devices that require a battery pack and safe, quick, donning and doffing. The wires connecting your battery pack are delicate and can easily become damaged or disconnected from your helmet. There are two traditional approaches to mitigate this problem. 1) Run tape along the entire length of your cable to secure it to your helmet. The problem with this is that you cannot easily remove your battery pack from your helmet for airborne operations or maintenance. 2) Run the cable underneath your helmet between your pads. This option allows your battery pack to be removed quickly but creates a dangerous scenario where the cable cannot disconnect in the event that your battery pack or nodes become tangled with another object. The Lid Snake eliminates these problems while also providing abrasion protection for your battery pack cable. This two-piece, flexible set accommodates unique helmet configurations, and are sized to be used as a single piece for flight helmets. For use with ANVIS battery packs or other battery packs with straight connectors. 90 Degree connectors will not fit! Note: This product may be shown with optional accessories. Made in the USA

Safety Instruction Guide for LID SNAKE SPIRITUS SYSTEMS LID SNAKE ANVIS MULTICAM BLACK

Introduction

Thank you for choosing the LID SNAKE ANVIS by Spiritus Systems. This product is designed for users of night vision devices requiring a battery pack, ensuring safe and efficient donning and doffing. Please read this safety instruction guide carefully to ensure proper use and maintenance of the product.

General Safety Guidelines

- Ensure that the product is used only as intended and in accordance with the instructions provided in this guide.
- Regularly inspect the Lid Snake for any signs of wear or damage, especially the cables and connectors.
- Keep the product out of reach of children and vulnerable individuals to prevent accidental use or injury.
- If you encounter any issues with the product, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- **Cable Management:** Avoid running cables in a manner that could lead to tangling with other objects. Ensure that cables are secured properly to prevent accidental disconnection.
- **Battery Pack Handling:** Handle the battery pack with care to avoid damage. Do not force connections that do not align properly.
- **Use Only Compatible Equipment:** Ensure that the Lid Snake is used with ANVIS battery packs or other battery packs with straight connectors. Do not use with 90degree connectors as they will not fit.
- **Avoid Abrasive Surfaces:** When using the Lid Snake, ensure that it does not come into contact with sharp or abrasive surfaces that could damage the cables.

Instructions for Installation and Usage

1. Installation:

- Carefully unpack the Lid Snake and inspect for any visible damage.
- Identify the twopiece flexible set and determine the configuration that best fits your helmet.
- Secure the Lid Snake to your helmet by following these steps:
 - Position the cables along the helmet's surface or underneath the pads, ensuring they are not pinched or kinked.
 - Use the provided securing mechanism to attach the Lid Snake, ensuring it is snug but not overly tight.

2. Usage:

- Ensure that the battery pack is properly connected to the Lid Snake before use.
- When donning the helmet, check that the cables are not caught or snagged on any objects.
- To remove the helmet, gently disconnect the battery pack and ensure that the cables are free from entanglement.

Disposal Instructions

- Dispose of the Lid Snake in accordance with local regulations regarding electronic waste.
- Do not dispose of the product in regular household waste. Instead, take it to a designated electronic waste recycling facility.

Contact Information for Further Support

For any inquiries regarding the safety and use of the LID SNAKE ANVIS, please refer to the manufacturer's contact information included with your product packaging.

Conclusion

By following these safety instructions, you can ensure the effective and safe use of the LID SNAKE ANVIS. Regular maintenance and adherence to these guidelines will help prolong the life of your product. Thank you for your attention to safety and for choosing Spiritus Systems.
