

LID SNAKE ANVIS - MULTICAM

[Shooting Accessories](#) > [Tactical Gear](#) > [Accessories](#)

Lid Snake ANVIS The Spiritus Systems Lid Snake was designed for anybody using night vision devices that require a battery pack and safe, quick, donning and doffing. The wires connecting your battery pack are delicate and can easily become damaged or disconnected from your helmet. There are two traditional approaches to mitigate this problem. 1) Run tape along the entire length of your cable to secure it to your helmet. The problem with this is that you cannot easily remove your battery pack from your helmet for airborne operations or maintenance. 2) Run the cable underneath your helmet between your pads. This option allows your battery pack to be removed quickly but creates a dangerous scenario where the cable cannot disconnect in the event that your battery pack or nodes become tangled with another object. The Lid Snake eliminates these problems while also providing abrasion protection for your battery pack cable. This two-piece, flexible set accommodates unique helmet configurations, and are sized to be used as a single piece for flight helmets. For use with ANVIS battery packs or other battery packs with straight connectors. 90 Degree connectors will not fit! Note: This product may be shown with optional accessories. Made in the USA

Safety Instruction Guide for Lid Snake ANVIS Multicam

Introduction

Thank you for choosing the Lid Snake ANVIS by Spiritus Systems. This product is designed to enhance the safety and functionality of your night vision devices. It is important to read and follow these safety instructions to ensure the safe use of this product.

General Safety Guidelines

- Ensure that the Lid Snake is used only with ANVIS battery packs or other battery packs with straight connectors. 90degree connectors will not fit.
- Always inspect the Lid Snake for any signs of wear or damage before each use.
- Avoid exposing the Lid Snake to extreme temperatures or harsh chemicals that may degrade the materials.
- Keep the product out of reach of children and vulnerable individuals to prevent accidental harm.

Specific Safety Precautions for Use

- Do not attempt to modify or alter the Lid Snake in any way, as this may compromise its safety and effectiveness.
- When using the Lid Snake, ensure that the cable is properly secured to prevent tangling with other objects during operations.
- Avoid running the cable underneath your helmet in a manner that could restrict movement or lead to entanglement.
- Always ensure that the battery pack is securely connected to the Lid Snake before use.

Instructions for Installation and Usage

1. Installation

- Carefully unpack the Lid Snake and inspect it for any damage.
- Identify the twopiece flexible set and determine the best configuration for your helmet.
- Attach the Lid Snake to your helmet, ensuring that the cable is positioned to avoid interference with your vision or movement.
- Secure the battery pack to the Lid Snake, ensuring that it is connected firmly.

2. Usage

- Before each use, check that the Lid Snake is properly attached and that the cable is not pinched or damaged.
- When donning your helmet, ensure that the Lid Snake does not obstruct your view or create discomfort.
- For removal, gently disconnect the battery pack and carefully remove the Lid Snake from your helmet.

Disposal Instructions

- Dispose of the Lid Snake in accordance with local regulations for electronic waste.
- Do not dispose of the product in regular household waste.
- Consider recycling the materials where possible to minimize environmental impact.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Lid Snake ANVIS, please refer to the manufacturer's contact information provided with your product packaging.

Note: This guide is designed to ensure your safety while using the Lid Snake ANVIS. Please follow all instructions carefully and report any unsafe conditions or incidents to the appropriate authorities. Stay informed about product recalls and safety updates via the EU Safety Gate platform.
