SIERRATAC Non-Padded Sling The SIERRATAC Sling, by Spiritus Systems. Every now and then Spiritus discovers a product that is just too good to not use themselves. Spiritus strives to not saturate the market with products that fill a gap that has already been filled by someone else. They have been getting asked for a sling for a long time, and they are pleased to have teamed up with SIERRATAC to provide you with the best sling on the market. The Sling was developed and field tested by professional end users in both the LEO and Military realms. Every detail of the sling was meticulously thought out to provide the end user with an optimal solution for securing their weapon. Make no mistake, this sling was designed with real world operations in mind. Each sling comes with a durable rubber sling retention band that is designed to withstand abrasion and keep the sling secure when not in use. The band features a thicker side wall than most industrial bands for added durability. Notable Features SIERRATAC Proprietary Billet Aluminum Slider allows for quick tension adjustment to the sling without the inherent danger of a tail snagging other items. The slider acts as a solid indexing point under stressful or dark conditions. The slider does have machined slots that allow the user to add a small pull tab to it if desired. Open looped ends allow the user to add whatever mounting hardware is needed to fit their needs.

Attributes

SIERRATAC NonPadded Sling Safety Instructions

Introduction

Thank you for choosing the SIERRATAC NonPadded Sling by Spiritus Systems. This safety instruction guide is designed to help you understand the proper use, installation, and disposal of the sling, ensuring your safety and the safety of others. Please read the entire guide carefully before using the product.

General Safety Guidelines

- Always inspect the sling for any signs of wear or damage before each use.
- Ensure that the sling is properly secured to your weapon and that all connections are intact.
- Use the sling only for its intended purpose, which is to secure firearms safely.
- Keep the sling away from children and individuals who may not understand its use.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the sling is adjusted to fit your body size and weapon securely.
- Avoid using the sling in wet or slippery conditions to prevent accidental slips.
- Do not overload the sling beyond its intended capacity, which could lead to failure.
- Be mindful of your surroundings while using the sling to avoid snagging on objects.
- Always maintain control of your weapon while using the sling to prevent accidental discharge.

Instructions for Installation and Usage

1. Installation:

- Identify the mounting points on your weapon where the sling will be attached.
- Use the open looped ends of the sling to attach it to the designated mounting hardware.
- Ensure the connections are secure and that the sling is properly oriented for use.

2. Adjustment:

- Use the SIERRATAC Proprietary Billet Aluminum Slider to adjust the tension of the sling.
- Pull the slider to tighten or loosen the sling as needed for your comfort and security.
- If desired, you can add a small pull tab to the machined slots on the slider for easier adjustment.

3. Usage:

- Once the sling is attached and adjusted, position your weapon securely.
- Ensure that the rubber sling retention band is in place to keep the sling secure when not in use.
- Practice using the sling in a safe environment to become familiar with its operation.

Disposal Instructions

- Dispose of the sling responsibly when it is no longer needed or if it shows signs of significant wear or damage.
- Do not dispose of the sling in regular household waste. Instead, follow local regulations for disposing of outdoor or sporting equipment.
- If in doubt, contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the SIERRATAC NonPadded Sling, please refer to the manufacturer's contact details provided with your product packaging or visit their official website.

Thank you for your attention to these safety instructions. Your safety and the safety of others depend on the proper use and care of your SIERRATAC NonPadded Sling.
