## Recoil-Absorbing Pads For Popular Rifles & Shotguns; Drop-In Installation

Drop-in replacement buttpad with outstanding recoil absorption properties reduces felt recoil by as much as 90%. Minimizes flinch for fast, accurate follow up shots and no "day after" shoulder pain. These pads are pre-shaped to fit the factory stock contours and screw spacing of specific rifle and shotgun models, so there's no grinding, fitting, or drilling. Remove the current buttpad, replace with a Kick-Eez. Made of Sorbothane®, a unique visco-elastic polymer that disperses recoil energy outward, away from the shooter's shoulder, without distorting or bottoming out. Retains its 100% memory even after thousands of shots.
