Soft, Genuine Sorbothane~

These pads don't just slow recoil down, they actually cut the kick dramatically by absorbing it! Made from soft, springy, Sorbothane, they end next-day-hurt, tame large caliber flinch and allow recoil-sensitive shooters to shoot in comfort. Won't ever bottom out. Grind and shape like regular pads, just don't allow heat to build up. 200 Series Dual Action Sporting Clays pad has two layers of Sorbothane for extra protection. The first layer reacts quickly to absorb initial recoil, while the second layer dissipates the remaining energy to maximize absorption. Heel is canted approximately 45° for easy shouldering from the "low gun" position. 300 Series All Purpose has a slightly concave face designed for all shooting applications. 300 Series Dual Action All Purpose pad combines the two-layer absorption properties of the 200 Series Dual Action pads with a flat back and downward-canted ends for easy shouldering in a wide variety shooting applications. 400 Series Trap has a more pronounced concave face than 300 Series for fixed-position trapshooting. 500 Series Magnum is designed for heavy recoiling guns and has a flat face and downward canted ends for easy shouldering. All pads feature solid sides, a black base, and leather-grain textured face.

RECOIL PAD KICKEEZ MEDIUM 11/8" TRAP PAD, BLACK Safety Instruction Guide

Introduction

Thank you for choosing the RECOIL PAD KICKEEZ MEDIUM 11/8" TRAP PAD. This product is designed to provide comfort and reduce recoil for shooters. To ensure safe and effective use, please read this safety instruction guide carefully. It includes important information on product safety, usage precautions, and disposal instructions in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the recoil pad is compatible with your firearm before use.
- Inspect the recoil pad for any damage or wear before each use. Do not use if damaged.
- Keep the recoil pad out of reach of children and vulnerable individuals when not in use.
- Always follow the manufacturer's instructions for installation and usage.
- Report any unsafe products or accidents to the relevant authorities immediately.
- Check for recall updates on the EU's Safety Gate platform regularly.

Specific Safety Precautions for Use

- Always wear appropriate eye and hearing protection when shooting.
- Ensure that the firearm is unloaded when installing or adjusting the recoil pad.
- Avoid using the recoil pad in extreme temperatures or conditions that may affect its performance.
- Do not apply excessive heat to the recoil pad during installation or adjustment, as this may compromise its integrity.
- Be aware of your shooting environment and ensure that it is safe and secure.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and safe to handle.
- Remove any existing recoil pad from the stock of the firearm.
- Align the KICKEEZ recoil pad with the stock, ensuring that it fits properly.
- Secure the pad using the appropriate screws or fasteners provided.
- Ensure that the recoil pad is firmly attached and does not shift when pulled.

2. Usage:

- Position the firearm comfortably against your shoulder, ensuring the recoil pad is firmly in contact with your shoulder.
- When shooting, maintain a proper stance and grip to maximize comfort and control.
- After shooting, inspect the recoil pad for any signs of wear or damage.

Disposal Instructions

- Dispose of the recoil pad in accordance with local regulations.
- Do not incinerate the recoil pad, as it may release harmful substances.
- If the recoil pad is damaged beyond use, consider recycling it if possible.
