

AR-15/ 308 AR EZ TRIGGER™ SYSTEM - J P ENTERPRISES JPFCP-1EZ TRIGGER KIT, .154" PINS,

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

Complete trigger system installs in five minutes without fitting or modification of parts on the trigger or your receiver. All adjustments are made with setscrews, eliminating the risk of ruining the trigger due to errors in fitting. Includes the JP Speed Hammer for fast lock time, plus "anti-walk" pins with button head cap screws for easy removal and reinstallation of the trigger system. Overtravel adjustment screw lets you set your trigger for a clean, crisp, single-stage release. Comes with two hammer springs: install the yellow spring to get a 3 to 3½ pull for competition or recreational shooting with non-military ammunition. The red spring gives a 3½ to 4 lb. pull and more hammer force for use with the harder primers found on military (5.56mm NATO) ammo and for law enforcement duty use. The red spring should be used in any installation on an AR-style .308 rifle. For a heavier, 4½ lb. pull for tactical applications or NRA Service Rifle competition, install the JPS4.5 spring kit. JPFCP-1EZ fits small pin (.154") receivers.

Attributes

- Name: [J P ENTERPRISES JPFCP-1EZ TRIGGER KIT, .154" PINS,](#)
- Manufacturer: [J P ENTERPRISES](#)

Safety Instruction Guide for AR15/308 AR EZ Trigger™ System

Introduction

Thank you for choosing the AR15/308 AR EZ Trigger™ System by J P Enterprises. This guide provides essential safety information, installation instructions, and usage guidelines to ensure a safe and effective experience with your trigger system. Please read this manual carefully before installation and use.

General Safety Guidelines

- **Product Safety:** Ensure safe use of this trigger system by following all instructions. This product is designed for firearms and should be handled with care.
- **Enhanced Recalls:** Stay informed about any recalls related to this product. If a recall is issued, follow the provided instructions for returning or repairing the product.
- **Online Shopping:** If purchased online, ensure that the platform meets safety requirements as outlined by the EU regulations.
- **Special Consumer Focus:** This product is not intended for use by individuals under the legal age for firearm handling. Keep it out of reach of children.
- **EU Contact Point:** For any safety inquiries, please refer to the contact details provided by your retailer or the manufacturer.
- **Rapid Alerts:** Regularly check the EU's Safety Gate platform for updates on any unsafe products.

Specific Safety Precautions for Use

- **Read All Instructions:** Before using the trigger system, read all instructions and safety warnings thoroughly.
- **Installation by Professionals:** If you are not familiar with firearm modifications, seek assistance from a qualified gunsmith for installation.
- **Check Compatibility:** Ensure that your firearm is compatible with the trigger system. This kit fits small pin (.154") receivers.
- **Use Correct Springs:** Install the appropriate hammer spring based on your ammunition type to avoid misfires or excessive pull weight.
- **Avoid Modifications:** Do not modify any parts of the trigger system. Doing so may compromise safety and functionality.
- **Regular Inspections:** Periodically inspect the trigger system for wear or damage. Replace any worn components immediately.
- **Safe Handling:** Always treat your firearm as if it is loaded. Follow all standard firearm safety practices.

Instructions for Installation and Usage

Installation Steps

1. **Gather Tools:** Ensure you have the necessary tools, including a punch tool for pin installation and a screwdriver for adjustments.
2. **Prepare the Receiver:** Ensure the firearm is unloaded and the receiver is clear of any ammunition.
3. **Remove Old Trigger System:** Carefully remove the existing trigger system, following the manufacturer's instructions.
4. **Install the New Trigger:**
 - Align the new trigger system with the receiver.
 - Insert the antiwalk pins into the designated holes.
 - Secure the trigger system using the button head cap screws.
5. **Adjust Overtravel:** Use the overtravel adjustment screw to set the trigger for a clean release.

6. **Install Hammer Springs:** Choose the appropriate hammer spring (yellow or red) based on your shooting needs and install it.
7. **Safety Assembly:** Ensure the safety assembly is correctly installed and functioning.
8. **Final Checks:** Doublecheck all installations and adjustments before reassembling the firearm.

Usage Instructions

- **Testing:** After installation, conduct a function test to ensure the trigger operates correctly without any issues.
- **Dry Fire Practice:** Practice dry firing in a safe environment to become accustomed to the new trigger pull.
- **Live Fire Testing:** When ready, conduct live fire testing in a controlled and safe setting.

Disposal Instructions

When disposing of the trigger system or any components:

- **Follow Local Regulations:** Adhere to local laws regarding the disposal of firearm parts.
- **Recycle Materials:** If possible, recycle metal components through appropriate recycling programs.
- **Safe Disposal:** Ensure that all parts are disposed of in a manner that prevents unauthorized access.

Contact Information for Further Support

For any questions or concerns regarding the AR15/308 AR EZ Trigger™ System, please refer to the contact information provided by your retailer or the manufacturer. It is important to reach out for assistance if you experience any issues or have safety concerns.

By following these guidelines, you can ensure a safe and enjoyable experience with your AR15/308 AR EZ Trigger™ System. Thank you for your attention to safety and responsible firearm handling.
