[Rifle Parts](#) > [Bolt Parts](#) > [Ejector Parts](#) > [Ejector Springs](#)

Mil-spec has left the door open for many much-needed improvements for decades. Enhanced metallurgy and optimized geometry make our Enhanced Ejector a premium upgrade for your bolt assembly. With a rounded head polished to a near mirror finish, this ejector dramatically reduces brass smear and shavings. It's the standard ejector on all our Enhanced Bolt models. The .223 Enhanced Ejector is designed to function in any Mil-spec bolt assembly, this Enhanced Ejector includes a replacement ejector spring and coil pin. The 308 Enhanced Ejector is designed to function in any standard DPMS-style 308 bolt assembly, this Enhanced Ejector includes a replacement ejector spring and coil pin.

## **Attributes**

# Enhanced Ejector Kit Safety Instructions

## Introduction

Thank you for purchasing the Enhanced Ejector Kit with Spring and Roll Pin by J P Enterprises. This product is designed to improve the performance of your bolt assembly while ensuring safe usage in compliance with the EU General Product Safety Regulation (GPSR). Please read this safety instruction guide carefully before use to ensure a safe and effective experience.

## General Safety Guidelines

- Always handle all firearm components with care and respect.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the ejector kit for signs of wear or damage before use.
- Follow all local laws and regulations regarding firearms and firearm components.
- In case of any concerns regarding the product's safety or functionality, discontinue use immediately.

## Specific Safety Precautions for Use

- Before installation, ensure that the firearm is unloaded and pointed in a safe direction.
- Wear appropriate safety gear, including safety glasses, when handling firearm components.
- Be cautious of sharp edges on the ejector and other components during installation and handling.
- Avoid using excessive force during installation to prevent damage to the components or the firearm.
- Ensure that the ejector is compatible with your specific bolt assembly (AR15 or DPMSstyle 308).

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that you have the necessary tools for installation, including a punch tool.
- Make sure the firearm is completely unloaded and in a safe condition.

### 2. Installation Steps:

- Remove the existing ejector from your bolt assembly using the punch tool.
- Carefully insert the new Enhanced Ejector into the designated slot in the bolt assembly.
- Align the ejector spring and roll pin with the ejector and bolt assembly.
- Use the punch tool to securely fasten the roll pin into place, ensuring that it is flush with the surface.
- Doublecheck that the ejector moves freely and is properly seated.

### 3. Usage:

- After installation, test the ejector function by cycling the bolt assembly without ammunition to ensure smooth operation.
- Regularly inspect the ejector for any signs of wear and replace as necessary.

## Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Do not dispose of the ejector kit in regular household waste. Check with local authorities for proper disposal methods for firearm components.

## Contact Information for Further Support

For any questions or concerns regarding the Enhanced Ejector Kit, please contact the manufacturer directly. Ensure you have the product details and any relevant information ready for assistance.

By following these safety instructions, you can ensure a safe and effective use of the Enhanced Ejector Kit. Thank you for prioritizing safety and compliance with EU regulations.
