

CRUSH WASHER - J P ENTERPRISES CRUSH WASHER 1/2"X28, .750OD, BLACK CARBON STEEL

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Hardware](#) > [Washers](#)

We've been installing comps with crush washers since the debut of the original Recoil Eliminator. Every one has been a pain to work with and little better than a "necessary evil." There had to be a better way. Our Double Crush Washers are the way forward. Thanks to a JP original design and careful metallurgy, your next comp installation can be quick and painless. These washers auto-center and provide smooth, consistent crush without struggle. Each is good for close to 1 1/2 turns for just-right timing. US Patent Number 100,041,753

CRUSH WASHER J P ENTERPRISES Safety Instruction Guide

Introduction

Thank you for choosing the CRUSH WASHER by J P ENTERPRISES. This product is designed to improve the installation process of compensators. To ensure safe and effective use of the crush washer, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that you are using the product for its intended purpose only.
- Always wear appropriate personal protective equipment (PPE) such as safety goggles and gloves when handling the crush washer.
- Keep the product out of reach of children and pets.
- Inspect the crush washer for any damage or defects before use. Do not use if damaged.
- Store the product in a cool, dry place away from direct sunlight and moisture.

Specific Safety Precautions for Use

- Avoid using excessive force during installation to prevent injury or damage to the washer.
- Ensure that the crush washer is properly seated before tightening any components.
- Do not exceed the recommended torque specifications when tightening components to avoid crushing the washer improperly.
- If you experience difficulty during installation, stop and reassess the situation. Do not force the installation.
- In case of any accidents or injuries, seek medical attention immediately.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and components before starting the installation.
- Ensure that the work area is clean and welllit.

2. Installation Steps

- Start by cleaning the surfaces where the crush washer will be installed.
- Place the crush washer onto the designated surface, ensuring it is oriented correctly.
- Align the components that will be fastened together, ensuring the crush washer is properly positioned.
- Gradually tighten the components to secure the crush washer in place.
- Use a torque wrench to achieve the correct torque settings, ensuring not to exceed the recommended limits.
- Check the installation for any gaps or misalignments. Adjust as necessary.

3. PostInstallation

- After installation, doublecheck that all components are secure and the crush washer is functioning as intended.
- Monitor the installation over time for any signs of wear or damage.

Disposal Instructions

- Dispose of the crush washer in accordance with local regulations.
- Do not dispose of the product in general waste if it contains hazardous materials.
- Consider recycling if applicable.

Contact Information for Further Support

For any inquiries or support regarding the CRUSH WASHER, please refer to the manufacturer's contact information provided with the product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and successful installation of the CRUSH WASHER by J P ENTERPRISES. Always prioritize safety and refer to this guide whenever needed. Thank you for your attention to these guidelines.
