

# CRUSH WASHER - J P ENTERPRISES CRUSH WASHER 5/8"X24, .750OD, STAINLESS STEEL

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Hardware](#) > [Washers](#)

We've been installing comps with crush washers since the debut of the original Recoil Eliminator. Every one has been a pain to work with and little better than a "necessary evil." There had to be a better way. Our Double Crush Washers are the way forward. Thanks to a JP original design and careful metallurgy, your next comp installation can be quick and painless. These washers auto-center and provide smooth, consistent crush without struggle. Each is good for close to 1 1/2 turns for just-right timing. US Patent Number 100,041,753

## Attributes

- Name: [J P ENTERPRISES CRUSH WASHER 5/8"X24, .750OD, STAINLESS STEEL](#)
- Manufacturer: [J P ENTERPRISES](#)
- Product no.: 452000274
- Mfr. No.: JPCW58S.750
- Colour: Silver
- Material: Stainless Steel
- Delivery weight: 0.045kg
- Shipping height: 3mm
- Shipping width: 102mm
- Shipping length: 171mm
- UPC: 812872024721

# CRUSH WASHER Safety Instruction Guide

## Introduction

Thank you for choosing the CRUSH WASHER by J P ENTERPRISES. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of the product. Please read this document carefully before installation and usage to avoid any hazards.

## General Safety Guidelines

- Ensure that the CRUSH WASHER is suitable for your intended application.
- Always inspect the washer for any damage before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Follow all local regulations regarding the use of washers in your area.
- If you experience any issues during installation or use, consult a professional.

## Specific Safety Precautions for Use

- Use only with compatible components to avoid malfunction or failure.
- Ensure that the installation area is clean and free from debris.
- Do not exceed the recommended torque specifications during installation.
- Avoid using excessive force when tightening the washer to prevent damage.
- If you notice any unusual noises or performance issues during use, stop immediately and inspect the installation.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools and components for installation.
- Ensure you have the correct size and type of CRUSH WASHER for your application.

### 2. Installation Steps

- Clean the surface where the washer will be installed to ensure a proper seal.
- Place the CRUSH WASHER onto the designated area of the component.
- Align the washer properly to avoid any misalignment during tightening.
- Apply the component and handtighten to ensure the washer is seated correctly.
- Use a torque wrench to tighten to the manufacturer's specifications, ensuring not to exceed the limits.

### 3. PostInstallation Check

- After installation, check for any leaks or misalignment.
- Test the assembly under normal operating conditions to ensure proper function.

## Disposal Instructions

- Dispose of the CRUSH WASHER in accordance with local waste disposal regulations.
- Do not dispose of the product in household waste. Check for recycling options available in your area.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the CRUSH WASHER, please reach out to the appropriate contact point provided by the manufacturer or retailer.

## **Conclusion**

By following these safety instructions, you can ensure the safe and effective use of the CRUSH WASHER. Always prioritize safety and consult professionals if you are unsure about any aspect of the installation or usage. Thank you for your attention to these important guidelines.
