

REMINGTON 700 H RECOIL LUG ALIGNMENT TOOL - KLEINENDORST REMINGTON 700 HOLLAND LUG TOOL

[Gunsmith Tools](#) > [Rifle Tools](#) > [Stock Tools](#)

A time saver! This high quality tool is secured to the front of the receiver by an Allen head screw. A slot, precisely milled in the front of the tool, guarantees the proper positioning of the recoil lug. No more wasted time from having the lug cant to one side as the barrel is tightened into the receiver.

REMINGTON 700 H RECOIL LUG ALIGNMENT TOOL

SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the REMINGTON 700 H Recoil Lug Alignment Tool. This guide provides essential safety instructions to ensure the safe and effective use of this tool. Please read this manual carefully before use and keep it for future reference.

General Safety Guidelines

- Ensure that the tool is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment, such as safety glasses and gloves, when using the tool.
- Keep the tool out of reach of children and unauthorized users.
- Inspect the tool for any damage or wear before each use. Do not use if damaged.
- Be aware of your surroundings and ensure a clear workspace to avoid accidents.
- Report any unsafe conditions or product-related incidents to the appropriate authorities.

Specific Safety Precautions for Use

- This tool is designed for use with the Remington 700 model firearms. Do not use it with other models or brands.
- Ensure the firearm is unloaded and pointed in a safe direction before using the tool.
- Do not force the tool into position; it should fit securely without excessive pressure.
- Avoid placing your hands or fingers near the recoil lug area during installation.
- Do not modify the tool in any way, as this could lead to unsafe conditions.
- If you experience any difficulty during use, stop immediately and review the instructions.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and in a safe condition.
- Gather all necessary tools and materials required for the installation.

2. Securing the Tool:

- Attach the REMINGTON 700 H Recoil Lug Alignment Tool to the front of the receiver using the provided Allen head screw.
- Tighten the screw securely to ensure that the tool is firmly in place.

3. Positioning the Recoil Lug:

- Align the recoil lug with the precisely milled slot in the tool.
- Ensure that the recoil lug is positioned correctly to avoid any misalignment during barrel installation.

4. Installing the Barrel:

- With the recoil lug properly aligned, proceed to install the barrel into the receiver.
- Tighten the barrel to the manufacturer's specifications, ensuring that the recoil lug remains in the correct position.

5. Final Checks:

- After installation, doublecheck the alignment and fit of the barrel and recoil lug.
- Remove the tool from the receiver and store it safely.

Disposal Instructions

- Dispose of the tool in accordance with local regulations regarding metal and electronic waste.
- If the tool is damaged beyond repair, ensure it is disposed of in a manner that prevents any risk to the environment or public safety.

Contact Information for Further Support

For further assistance or inquiries regarding the REMINGTON 700 H Recoil Lug Alignment Tool, please refer to the manufacturer's website or contact the appropriate support channels.

Thank you for your attention to these safety instructions. Your safety is our priority.
