Safety Instruction Guide for Piloted Receiver Reamer Manson Precision Oversize Receiver Reamer

Introduction

Thank you for choosing the Piloted Receiver Reamer Manson Precision Oversize Receiver Reamer. This tool is designed to cut receiver thread minor diameters and receiver lugs to equal heights. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the tool is used only for its intended purpose, which is cutting receiver threads and lugs.
- Always wear appropriate personal protective equipment (PPE), including safety goggles and gloves, when handling and using this tool.
- Keep the work area clean and welllit to reduce the risk of accidents.
- Store the tool in a secure location, out of reach of children and vulnerable individuals.
- Regularly inspect the tool for any signs of wear or damage before use. Do not use if damaged.
- Follow all local regulations regarding the use and disposal of metalworking tools.

Specific Safety Precautions for Use

- Use the reamer only with the Receiver Tap Bushings included with Manson Receiver Taps.
- Ensure that the reamer is securely mounted before use to prevent slipping or movement during operation.
- Avoid excessive force when using the reamer; let the tool do the work to minimize the risk of breakage or injury.
- Do not attempt to modify or alter the reamer in any way.
- If you experience any unusual vibrations or resistance while using the tool, stop immediately and inspect it for issues.
- Do not leave the tool unattended while in use.

Instructions for Installation and Usage

1. Installation:

- Ensure that the workpiece is securely clamped and stable.
- Attach the Piloted Receiver Reamer to a suitable drill or machine, following the manufacturer's instructions for securing the tool.
- Verify that the reamer is aligned correctly with the workpiece.

2. Usage:

- Begin operating the drill or machine at a low speed to ensure control.
- Gradually increase the speed as needed, but do not exceed the recommended RPM for highspeed steel tools.
- Monitor the cutting action closely. If the tool begins to bind or overheat, reduce speed or stop to allow cooling.
- After completing the cut, remove the reamer carefully and clean the work area of any metal shavings or debris.

3. PostUsage:

- Clean the reamer with a soft cloth to remove any residue.
- Store the tool in its designated location to prevent damage.

Disposal Instructions

- Dispose of the Piloted Receiver Reamer in accordance with local regulations regarding metal disposal.
- If the tool is no longer usable, consider recycling options available in your area.

Contact Information for Further Support

For additional support or safety inquiries, please refer to the product packaging or visit the manufacturer's website. Ensure that you have the product information ready for efficient assistance.

By following these safety instructions, you can ensure a safe and effective experience with your Piloted Receiver Reamer Manson Precision Oversize Receiver Reamer. Thank you for your attention to these important safety measures.
