

# BOLT FACE TRUING TOOLS - MANSON PRECISION TOOLING BLOCK, ONLY

[Gunsmith Tools](#) > [Rifle Tools](#) > [Action & Bolt Trueing Tools](#)

## Squares Bolt Face To Receiver With Greater Precision, In Less Time

Carbide facing burr requires only hand tools to cut the bolt face square and concentric to the boltway. Saves man hours and setup time. Tooling block locates in the front receiver ring; turn the facing burr with a slow speed drill motor. Use after bolt lapping and squaring receiver face.

# **BOLT FACE TRUING TOOLS MANSON PRECISION TOOLING BLOCK Safety Instructions**

## **Introduction**

Thank you for choosing the BOLT FACE TRUING TOOLS MANSON PRECISION TOOLING BLOCK. This guide provides important safety instructions and usage information to ensure safe and effective operation of the product. Please read this document carefully before use.

## **General Safety Guidelines**

- Always operate the tool in a wellventilated area.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Keep the work area clean and welllit to prevent accidents.
- Ensure that all tools and equipment are in good working condition before use.
- Do not use the tool for any purpose other than its intended use.
- Store the tool in a dry place away from children and unauthorized users.

## **Specific Safety Precautions for Use**

- Ensure that the drill motor is set to a slow speed before using the facing burr.
- Do not exceed the recommended speed for the facing burr to prevent breakage and injury.
- Always use the tooling block to ensure proper alignment and safety while cutting.
- Do not attempt to modify or alter the tooling block or facing burr.
- Keep hands and body away from the cutting area while operating the tool.
- If the tool becomes damaged or malfunctions, cease use immediately and consult a professional.

## **Instructions for Installation and Usage**

### **1. Preparation**

- Ensure you have the following:
  - Tooling Block
  - Facing Burr
  - Slow speed drill motor
- Inspect the tooling block and facing burr for any signs of damage or wear.

### **2. Installation**

- Insert the tooling block into the front receiver ring of the firearm.
- Secure the tooling block according to the manufacturer's instructions to ensure stability.

### **3. Using the Facing Burr**

- Attach the facing burr to the drill motor.
- Set the drill motor to a slow speed.
- Carefully turn on the drill motor and begin to face the bolt face square and concentric to the boltway.
- Maintain a steady hand and control the drill motor to prevent slipping or accidents.
- After completing the facing process, turn off the drill motor and remove the facing burr.

### **4. PostUse**

- Clean the tooling block and facing burr after use to remove any debris.
- Inspect the tools for any wear or damage before storage.

## **Disposal Instructions**

- Dispose of any worn or damaged tools in accordance with local regulations.
- Do not dispose of the tooling block or facing burr in household waste.
- Consider recycling options for metal components where available.

## **Contact Information for Further Support**

For any questions or concerns regarding the BOLT FACE TRUING TOOLS MANSON PRECISION TOOLING BLOCK, please refer to your local retailer or the manufacturer's customer service. Ensure you have the product details available for assistance.

By following these safety instructions, you can ensure a safe and effective experience while using the BOLT FACE TRUING TOOLS MANSON PRECISION TOOLING BLOCK. Please keep this guide for future reference.
