## Determine Correct Headspace

MANSON PRECISION RIMLESS CARTRIDGE HEADSPACE GAUGES The Manson Precision Rimless Cartridge Headspace Gauges enable gunsmiths and firearm enthusiasts to verify the headspace of rimless cartridges, ensuring firearms are safe to fire. Proper headspace is critical for reliable chambering, ignition, and extraction of cartridges, preventing potential malfunctions or safety hazards. These gauges are essential for chambering new barrels, performing routine maintenance, or evaluating used firearms. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Manson Precision Rimless Cartridge Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Manson Precision Rimless Cartridge Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

## Attributes

- Name: [MANSON PRECISION 7MM WSM NO-GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [MANSON PRECISION](#)
- Product no.: 513000046
- Mfr. No.: NONE
- Cartridge: 7 mm WSM (Winchester Short Magnum)
- Colour: Steel
- Height: 2"
- Length: 2"
- Material: Steel
- Model Number: 7mm WSM No Go
- Style: No Go Gauge
- Weight: 0.2 lbs
- Width: 2"
- Delivery weight: 0.045kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm

# RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 7MM WSM NOGO GAUGE SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 7MM WSM NOGO GAUGE. This product is designed to ensure the safe use of firearms by providing accurate chamber headspace measurements. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

## General Safety Guidelines

- Always ensure that the firearm is unloaded before using the headspace gauge.
- Use the headspace gauge only for its intended purpose, which is to measure the headspace of the 7mm WSM cartridge.
- Do not mix and match brands of headspace gauges, as this can lead to inaccurate readings.
- Keep the headspace gauge out of reach of children and vulnerable individuals.
- Regularly inspect the gauge for signs of wear or damage before each use.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Proper Use:** Ensure you are familiar with how to properly use the headspace gauge before attempting to measure headspace.
- **Calibration:** Always check that the gauge is calibrated according to the manufacturer's specifications.
- **Environmental Conditions:** Use the gauge in a clean, dry environment to prevent contamination or damage.
- **Personal Protective Equipment:** Wear appropriate safety gear, such as safety glasses, when using the headspace gauge to protect against any potential debris.
- **Storage:** Store the gauge in a protective case when not in use to prevent damage.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is completely unloaded and pointed in a safe direction.
- Gather all necessary tools and equipment needed for the measurement.

### 2. Using the GO Gauge:

- Insert the GO gauge into the chamber of the firearm.
- The gauge should fit snugly without resistance. If it does not fit, it indicates that the chamber depth is below the SAAMI recommended minimum.

### 3. Using the NO/GO Gauge:

- Insert the NO/GO gauge into the chamber after checking with the GO gauge.
- The NO/GO gauge should not fit into the chamber. If it does, this indicates excessive chamber depth and an unsafe condition.

### 4. Interpreting Results:

- If the GO gauge fits and the NO/GO gauge does not, the firearm is safe to use.
- If the NO/GO gauge fits, do not use the firearm until it has been inspected by a qualified gunsmith.

#### **5. Cleaning and Maintenance:**

- Clean the gauge after each use to remove any debris or residue.
- Store the gauge in a dry, safe place to prevent rust and damage.

## **Disposal Instructions**

- Dispose of the headspace gauge responsibly. If the gauge is damaged or no longer usable, follow local regulations for disposal of metal products.
- Do not dispose of the gauge in regular household waste. Check with local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding the use, safety, or maintenance of the RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 7MM WSM NOGO GAUGE, please refer to the manufacturer's contact information provided with the product packaging or documentation.

By following these safety instructions, you can ensure the safe and effective use of your headspace gauge. Always prioritize safety and consult with professionals if you have any doubts or questions regarding firearm safety and measurements.
