Safety Instruction Guide for PILOTED TAP/MANDREL MANSON PRECISION STANDARD REMINGTON RECEIVER TAP

Introduction

Thank you for choosing the Piloted Tap/Mandrel Manson Precision Standard Remington Receiver Tap. This tool is designed to recut and square receiver threads, ensuring they are concentric with the centerline of the boltway. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure safe use of the product by following all instructions.
- Be aware of potential hazards associated with the use of highspeed steel tools.
- Use the product only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Regularly inspect the tool for signs of damage or wear before use.
- In case of any accidents or unsafe conditions, report them to the appropriate authorities.

Specific Safety Precautions for Use

- Before using the tap, ensure that the work area is clean and free from clutter.
- Do not use the tap if it is damaged or if any components are missing.
- Always secure the workpiece properly to prevent movement during the tapping process.
- Use the tap at the recommended speed and feed rates to avoid overheating and tool damage.
- Avoid direct contact with the cutting edges of the tap to prevent injuries.
- Do not force the tap; if it becomes stuck, stop and assess the situation before proceeding.
- Ensure that the tap is properly lubricated to reduce friction and wear.
- Store the tap in a safe place when not in use to prevent accidents.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the tap, bushings, and appropriate lubrication.
- Select the correct bushing size (.701".705" diameter) for your application.

2. Installation:

- Insert the chosen bushing onto the pilot of the tap.
- Ensure the bushing is securely fitted and properly aligned.

3. Tapping Process:

- Position the tap in the workpiece, ensuring it is perpendicular to the surface.
- Begin the tapping process slowly, applying consistent pressure.
- Monitor the progress and adjust speed as necessary.

4. Completion:

- Once the desired depth is reached, carefully remove the tap from the workpiece.

- Clean the tap and work area after use.

5. PostUse Care:

- Inspect the tap for any signs of wear or damage.
- Store the tap in a protective case to prevent damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations and guidelines.
- Ensure that any damaged or worn components are disposed of safely to prevent injuries.
- Recycle materials where possible.

Contact Information for Further Support

For any inquiries regarding safety or product use, please reach out to the manufacturer or an authorized distributor. Ensure you have the product details ready for assistance.

By following these safety instructions, you can ensure a safe and effective experience with the Piloted Tap/Mandrel Manson Precision Standard Remington Receiver Tap. Thank you for your attention to safety.
