Determine Correct Headspace

MANSON PRECISION RIMLESS CARTRIDGE HEADSPACE GAUGES The Manson Precision Rimless Cartridge Headspace Gauges enable gunsmiths and firearm enthusiasts to verify the headspace of rimless cartridges, ensuring firearms are safe to fire. Proper headspace is critical for reliable chambering, ignition, and extraction of cartridges, preventing potential malfunctions or safety hazards. These gauges are essential for chambering new barrels, performing routine maintenance, or evaluating used firearms. Key Features:

Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements.

Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms.

Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments.

Specifications: Material: Hardened steel

Dimensions: Size varies with caliber and gauge style

Compliance: Manufactured to SAAMI specifications

Customer Insights: Customers value the Manson Precision Rimless Cartridge Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Manson Precision Rimless Cartridge Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [MANSON PRECISION 6.5MM GRENDEL NO GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [MANSON PRECISION](#)
- Product no.: 513000102
- Mfr. No.: NONE
- Cartridge: 6.5 Grendel
- Colour: Steel
- Height: 2"
- Length: 2"
- Material: Steel
- Model Number: 6.5mm Grendel NO GO
- Style: No Go Gauge
- Weight: 0.2 lbs
- Width: 2"
- Delivery weight: 0.025kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm

MANSON PRECISION 6.5MM GRENDEL NO GO

GAUGE SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the Manson Precision 6.5mm Grendel No Go Gauge. This product is designed to provide accurate measurements of chamber headspace, ensuring that your firearm is safe to fire. Please read this safety instruction guide carefully to ensure proper use and compliance with safety regulations.

General Safety Guidelines

- Always use the gauge in a safe and controlled environment.
- Ensure that the firearm is unloaded before using the gauge.
- Follow all local laws and regulations regarding the use of firearms and related equipment.
- Store the gauge in a safe place, out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Do not mix and match brands:** Using gauges from different manufacturers can lead to inaccurate readings due to tolerance stacking. Stick to one brand for your specific caliber.
- **Proper handling:** Always handle the gauge with care to avoid damage. Inspect the gauge for any signs of wear or damage before use.
- **Use in appropriate conditions:** Ensure that the environment is clean and free from dust and debris that may affect the accuracy of the gauge.
- **Follow manufacturer specifications:** Always refer to the manufacturer's guidelines for the correct usage of the gauge.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is completely unloaded.
- Clean the chamber of the firearm to remove any debris or obstructions.

2. Using the GO Gauge:

- Insert the GO gauge into the chamber of the firearm.
- The gauge should fit easily without resistance. If it does not, do not attempt to force it.

3. Using the NO/GO Gauge:

- After confirming the GO gauge fits, insert the NO/GO gauge into the chamber.
- The NO/GO gauge should not fit into the chamber. If it does, this indicates excessive chamber depth and an unsafe condition.

4. Interpreting Results:

- If the GO gauge fits and the NO/GO gauge does not fit, the chamber is within safe specifications.
- If the NO/GO gauge fits, do not use the firearm until the chamber has been evaluated by a

qualified gunsmith.

5. Cleaning and Maintenance:

- After use, clean the gauge with a soft cloth to remove any residue.
- Store the gauge in its protective case to prevent damage.

Disposal Instructions

- Dispose of the gauge in accordance with local regulations.
- Do not dispose of the gauge in regular household waste if it is damaged or no longer functional.
- Consider recycling options where applicable.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please refer to the manufacturer's contact information provided with the product packaging or on their official website. Always ensure you have the correct information before proceeding with any questions or concerns.

By following these safety instructions, you can ensure a safe and effective experience when using the Manson Precision 6.5mm Grendel No Go Gauge. Thank you for your attention to safety.
