Determine Correct Headspace

MANSON PRECISION RIMLESS CARTRIDGE HEADSPACE GAUGES The Manson Precision Rimless Cartridge Headspace Gauges enable gunsmiths and firearm enthusiasts to verify the headspace of rimless cartridges, ensuring firearms are safe to fire. Proper headspace is critical for reliable chambering, ignition, and extraction of cartridges, preventing potential malfunctions or safety hazards. These gauges are essential for chambering new barrels, performing routine maintenance, or evaluating used firearms. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Manson Precision Rimless Cartridge Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Manson Precision Rimless Cartridge Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [MANSON PRECISION 221 REM FIREBALL/300 AAC BLACKOUT GO GA HEADSPACE GA STEEL](#)
- Manufacturer: [MANSON PRECISION](#)
- Product no.: 513000107
- Mfr. No.: GO221REM
- Cartridge: 221 Remington Fireball
- Colour: Steel
- Height: 2"
- Length: 2"
- Material: Steel
- Model Number: 221 Rem Fireball/300 AAC Blackout GO
- Style: Go Gauge
- Weight: 0.2 lbs
- Width: 2"
- Delivery weight: 0.016kg
- Shipping height: 3mm
- Shipping width: 51mm

- Shipping length: 89mm

Safety Instruction Guide for RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 221 REM FIREBALL/300 AAC BLACKOUT GO GAUGE

Introduction

Thank you for choosing the RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 221 REM FIREBALL/300 AAC BLACKOUT GO GAUGE. This guide provides important safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle the gauge with care to prevent damage or injury.
- Store the gauge in a safe, dry place away from moisture and extreme temperatures.
- Inspect the gauge for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding firearms and ammunition.

Specific Safety Precautions for Use

- Always use the gauge in a welllit environment to ensure accurate readings.
- Do not mix and match brands of headspace gauges to avoid inaccurate readings.
- Ensure that the firearm is unloaded and pointed in a safe direction before using the gauge.
- Only use the gauge with the corresponding caliber for which it is designed.
- If you are unsure about the proper use of the gauge, seek assistance from a qualified professional.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded.
- Clean the chamber to remove any debris or obstructions.

2. Using the GO Gauge:

- Insert the GO gauge into the chamber of the firearm.
- The gauge should fit snugly without excessive force. If it does not fit, do not attempt to force it.
- If the GO gauge fits properly, the chamber is within the SAAMI recommended minimum chamber depth and is safe to fire.

3. Using the NO/GO Gauge:

- After checking with the GO gauge, insert the NO/GO gauge into the chamber.
- The NO/GO gauge should not fit if the chamber is within safe limits. If it fits, this indicates excessive chamber depth and an unsafe condition.

4. PostUse:

- Remove the gauge from the chamber carefully.
- Clean the gauge after use to maintain its precision and longevity.

Disposal Instructions

- Dispose of any damaged or worn gauges according to local regulations.
- Do not dispose of the gauge with regular household waste.
- Check with local authorities for proper disposal methods of metal products.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of this product, please contact the manufacturer directly. Ensure to have the product information ready for reference.

By following these guidelines, you can ensure the safe use of the RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 221 REM FIREBALL/300 AAC BLACKOUT GO GAUGE. Always prioritize safety and consult professionals if you have any doubts or questions. Thank you for your attention to safety.
