THROATING REAMERS MANSON PRECISION Safety Instruction Guide

Introduction

Thank you for choosing the THROATING REAMERS MANSON PRECISION .30 THROATING REAMER .2990" PILOT DIA. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before use to understand the potential hazards and how to avoid them.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling or using the reamer.
- Ensure that the work area is clean, dry, and welllit to prevent accidents.
- Keep the reamer out of the reach of children and unauthorized individuals.
- Inspect the reamer for any damage or wear before use. Do not use if damaged.
- Follow all local regulations and laws regarding the use of firearms and reaming tools.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the reamer only for its intended purpose, which is to customize chambering jobs for nonstandard bullets or additional freebore length.
- Ensure the reamer is securely mounted in a compatible tool or machine before use.
- Avoid excessive force or pressure when using the reamer, as this may cause damage or injury.
- Do not exceed the recommended RPMs for the reamer to prevent overheating or damage.
- Always keep hands and other body parts away from the cutting area during operation.
- If the reamer becomes stuck, stop the operation and carefully remove it without using excessive force.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials, including the reamer, a compatible drill or machine, and PPE.
- Ensure your work area is clean and organized.

2. Installation

- Securely attach the reamer to the drill or machine according to the manufacturer's instructions.
- Ensure that the reamer is properly aligned and tightened to prevent slippage during use.

3. Usage

- Start the drill or machine at a low RPM to ensure stability.
- Gradually increase the speed as needed, but do not exceed the manufacturer's recommendations.
- Apply steady and even pressure while reaming to achieve the desired chamber specifications.
- Monitor the reamer and workpiece for any signs of overheating or wear.

4. PostUsage

- After use, turn off the drill or machine and allow the reamer to cool down.
- Carefully remove the reamer and clean it according to the maintenance instructions provided by

the manufacturer.

Disposal Instructions

- Dispose of the reamer in accordance with local regulations for metal waste.
- If the reamer is damaged or no longer usable, consider recycling it to minimize environmental impact.
- Do not dispose of the reamer in regular household waste.

Contact Information for Further Support
