Determine Correct Headspace

MANSON PRECISION RIMLESS CARTRIDGE HEADSPACE GAUGES The Manson Precision Rimless Cartridge Headspace Gauges enable gunsmiths and firearm enthusiasts to verify the headspace of rimless cartridges, ensuring firearms are safe to fire. Proper headspace is critical for reliable chambering, ignition, and extraction of cartridges, preventing potential malfunctions or safety hazards. These gauges are essential for chambering new barrels, performing routine maintenance, or evaluating used firearms. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Manson Precision Rimless Cartridge Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Manson Precision Rimless Cartridge Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [MANSON PRECISION 22-250 ACKLEY IMPROVED GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [MANSON PRECISION](#)
- Product no.: 513100227
- Mfr. No.: GO22250ACK
- Cartridge: 22-250 Ackley
- Colour: Steel
- Height: 2"
- Length: 2"
- Material: Steel
- Model Number: 22-250 Ackley Improved GO
- Style: Go Gauge
- Weight: 0.2 lbs
- Width: 2"
- Delivery weight: 0.027kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm

RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 22250 ACKLEY IMPROVED GO GAUGE HEADSPACE GAUGE STEEL Safety Instruction Guide

Introduction

Thank you for choosing the RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 22250 ACKLEY IMPROVED GO GAUGE. This guide provides essential safety instructions to ensure the safe and effective use of this product. It is important to follow these guidelines to prevent accidents and ensure the safety of yourself and others.

General Safety Guidelines

- Always read and understand the instructions before using the headspace gauge.
- Ensure that the gauge is suitable for your specific firearm and cartridge type.
- Inspect the gauge for any signs of damage or wear before use.
- Store the gauge in a safe, dry place, away from children and pets.
- Understand the importance of headspace measurements in firearm safety. Incorrect measurements can lead to dangerous conditions.
- Do not use the gauge if it is damaged or if you are unsure about its condition.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Use the headspace gauge in a welllit and clean environment to avoid errors during measurement.
- Do not mix brands of headspace gauges. Stick to one brand for accurate readings.
- Ensure that the firearm is unloaded before performing any measurements.
- Follow the manufacturer's recommendations for the specific gauge you are using.
- Be aware that the GO gauge indicates the minimum chamber depth, while the NO/GO gauge indicates excessive chamber depth.
- Avoid using the gauge if you are not familiar with its operation. Seek assistance if needed.
- Always wear appropriate safety gear when handling firearms.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather the necessary tools, including the headspace gauge and any required cleaning materials.

2. Using the GO Gauge:

- Insert the GO gauge into the chamber of the firearm.
- Ensure that it fits snugly without forcing it. If it does not fit, do not use the firearm.
- The gauge should close the bolt completely. If the bolt does not close, the chamber depth is too shallow.

3. Using the NO/GO Gauge:

- Insert the NO/GO gauge into the chamber after checking with the GO gauge.

- The bolt should not close completely when the NO/GO gauge is inserted. If it does, the chamber depth is excessive, and the firearm may be unsafe to use.

4. Cleaning and Maintenance:

- After use, clean the gauge with a soft cloth to remove any debris or residue.
- Store the gauge in its original packaging or a protective case to prevent damage.

Disposal Instructions

- Dispose of the headspace gauge according to local regulations for metal products.
- If the gauge is damaged beyond repair, ensure it is disposed of in a way that prevents accidental injury to others.

Contact Information for Further Support

- For any safety inquiries or further assistance, please refer to the manufacturer's contact details provided with the product packaging.

Thank you for following these safety guidelines. By adhering to these instructions, you contribute to a safe and responsible firearm handling environment.
