Determine Correct Headspace

MANSON PRECISION RIMLESS CARTRIDGE HEADSPACE GAUGES The Manson Precision Rimless Cartridge Headspace Gauges enable gunsmiths and firearm enthusiasts to verify the headspace of rimless cartridges, ensuring firearms are safe to fire. Proper headspace is critical for reliable chambering, ignition, and extraction of cartridges, preventing potential malfunctions or safety hazards. These gauges are essential for chambering new barrels, performing routine maintenance, or evaluating used firearms. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Manson Precision Rimless Cartridge Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Manson Precision Rimless Cartridge Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [MANSON PRECISION 300 REM ULTRA MAGNUM NO GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [MANSON PRECISION](#)
- Product no.: 513100315
- Mfr. No.: NG300RUM
- Cartridge: 300 Remington Ultra Magnum
- Colour: Steel
- Height: 2"
- Length: 2"
- Material: Steel
- Model Number: 300 Rem Ultra Magnum NO GO
- Style: No Go Gauge
- Weight: 0.2 lbs
- Width: 2"
- Delivery weight: 0.068kg
- Shipping height: 1mm
- Shipping width: 57mm

- Shipping length: 89mm

RIMLESS CARTRIDGE HEADSPACE GAUGES

MANSON PRECISION 300 REM ULTRA MAGNUM NO GO GAUGE SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the RIMLESS CARTRIDGE HEADSPACE GAUGE by MANSON PRECISION. This product is designed to ensure the proper chamber headspace dimensions for your firearm, promoting safe and accurate operation. Please read the following safety instructions carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that you understand the purpose and function of the headspace gauge before use.
- Always handle firearms with care and follow all safety protocols.
- Keep the headspace gauge out of reach of children and vulnerable individuals.
- Regularly inspect the gauge for any signs of damage or wear before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay updated on recall information through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Use the Correct Gauge:** Always use the appropriate gauge for your specific caliber. Mixing brands or gauges can lead to inaccurate readings and unsafe conditions.
- **Avoid Tolerance Stacking:** Be aware that different manufacturers may operate within different tolerance ranges. Stick to one brand for accurate measurements.
- **Check for Wear and Tear:** Inspect the gauge for any signs of damage or excessive wear before each use. Do not use a damaged gauge.
- **Follow Manufacturer Instructions:** Adhere to all instructions provided by the manufacturer for safe and effective use.
- **Store Safely:** Store the headspace gauge in a secure location to prevent unauthorized access and accidental damage.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and equipment before starting.

2. Using the GO Gauge:

- Insert the GO gauge into the chamber of the firearm.
- The gauge should fit freely without excessive force. If it does not fit, the chamber may be too short.

3. Using the NO/GO Gauge:

- Insert the NO/GO gauge into the chamber of the firearm.
- The NO/GO gauge should not fit or should fit with difficulty. If it fits freely, the chamber may be too long, indicating an unsafe condition.

4. Interpretation of Results:

- If the GO gauge fits and the NO/GO gauge does not fit, the headspace is within acceptable limits.
- If the NO/GO gauge fits, consult a qualified gunsmith for further evaluation of the firearm.

5. Post Use:

- Clean the gauge after use to remove any debris or contaminants.
- Store the gauge in a protective case to prevent damage.

Disposal Instructions

- Dispose of the headspace gauge responsibly if it is no longer usable or has reached the end of its service life.
- Follow local regulations for the disposal of metal products.
- Do not dispose of the gauge in regular household waste.

Contact Information for Further Support

For any inquiries or further support regarding the RIMLESS CARTRIDGE HEADSPACE GAUGE, please refer to the manufacturer's documentation or website for contact details. Ensure that you have your product information ready for any assistance.

By following these safety instructions, you can ensure the safe and effective use of your RIMLESS CARTRIDGE HEADSPACE GAUGE. Always prioritize safety and consult professionals when in doubt. Thank you for your attention to these guidelines.
