## Determine Correct Headspace

MANSON PRECISION RIMLESS CARTRIDGE HEADSPACE GAUGES The Manson Precision Rimless Cartridge Headspace Gauges enable gunsmiths and firearm enthusiasts to verify the headspace of rimless cartridges, ensuring firearms are safe to fire. Proper headspace is critical for reliable chambering, ignition, and extraction of cartridges, preventing potential malfunctions or safety hazards. These gauges are essential for chambering new barrels, performing routine maintenance, or evaluating used firearms. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Manson Precision Rimless Cartridge Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Manson Precision Rimless Cartridge Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

## Attributes

- Name: [MANSON PRECISION 300 WSM GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [MANSON PRECISION](#)
- Product no.: 513100316
- Mfr. No.: NONE
- Cartridge: 300 WSM (Winchester Short Mag)
- Colour: Steel
- Height: 2"
- Length: 2"
- Material: Steel
- Model Number: 300 WSM GO
- Style: Go Gauge
- Weight: 0.2 lbs
- Width: 2"
- Delivery weight: 0.05kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm

# RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 300 WSM GO GAUGE HEADSPACE GAUGE STEEL Safety Instruction Guide

## Introduction

Thank you for choosing the RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 300 WSM GO GAUGE HEADSPACE GAUGE STEEL. This product is designed to ensure the proper chamber headspace dimensions, helping you determine if a firearm is safe to fire. This safety instruction guide provides essential information for the safe use, installation, and disposal of this product, in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always use the headspace gauge according to the manufacturer's instructions to ensure safety and accuracy.
- Do not mix brands of headspace gauges, as this can lead to inaccurate readings and unsafe conditions.
- Ensure that the gauge is in good condition before use. Inspect for wear or damage.
- Keep the gauge out of reach of children and vulnerable individuals to prevent accidents.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- **Proper Use:** Always use the GO gauge to check the minimum chamber depth as recommended by SAAMI. The NO/GO gauge should be used to identify excessive chamber depth.
- **Tolerance Stacking:** Avoid mixing gauges from different manufacturers to prevent tolerance stacking, which can lead to incorrect measurements.
- **Inspection:** Before each use, inspect the gauge for any signs of damage or wear. Do not use if damaged.
- **Safe Handling:** Handle the gauge with care. Avoid dropping or mishandling it, as this can affect its precision.
- **Environment:** Use the gauge in a clean, dry environment to prevent contamination or corrosion.

## Instructions for Installation and Usage

1. **Preparation:** Ensure that your firearm is unloaded and in a safe condition before using the gauge.
2. **Using the GO Gauge:**
  - Insert the GO gauge into the chamber of the firearm.
  - The gauge should fit freely without resistance. If it does not fit, the chamber may be too short, indicating an unsafe condition.
3. **Using the NO/GO Gauge:**
  - Insert the NO/GO gauge into the chamber after checking with the GO gauge.
  - The NO/GO gauge should not fit freely. If it does, the chamber may be too long, indicating an unsafe condition.
4. **Brand Consistency:** Always use gauges from the same manufacturer for the same caliber to ensure accurate readings. For example, use Forster gauges with Forster reamers.
5. **Post Use:** After using the gauge, clean it according to the manufacturer's instructions and store it in a safe place.

## **Disposal Instructions**

- Dispose of the headspace gauge responsibly. If the gauge is no longer usable, consider recycling it if possible.
- Follow local regulations for the disposal of metal products.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of this product, please contact the manufacturer or refer to the product packaging for further support information.

Thank you for your attention to these safety instructions. By following these guidelines, you will help ensure a safe and effective experience with your RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 300 WSM GO GAUGE HEADSPACE GAUGE STEEL.
