Determine Correct Headspace

MANSON PRECISION RIMLESS CARTRIDGE HEADSPACE GAUGES The Manson Precision Rimless Cartridge Headspace Gauges enable gunsmiths and firearm enthusiasts to verify the headspace of rimless cartridges, ensuring firearms are safe to fire. Proper headspace is critical for reliable chambering, ignition, and extraction of cartridges, preventing potential malfunctions or safety hazards. These gauges are essential for chambering new barrels, performing routine maintenance, or evaluating used firearms. **Key Features:** **Precision Machining:** Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. **Caliber Specificity:** Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. **Durable Construction:** Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. **Specifications:** **Material:** Hardened steel **Dimensions:** Size varies with caliber and gauge style **Compliance:** Manufactured to SAAMI specifications **Customer Insights:** Customers value the Manson Precision Rimless Cartridge Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Manson Precision Rimless Cartridge Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [MANSON PRECISION 300 WSM NO GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [MANSON PRECISION](#)
- Product no.: 513100317
- Mfr. No.: NONE
- Cartridge: 300 WSM (Winchester Short Mag)
- Colour: Steel
- Height: 2"
- Length: 2"
- Material: Steel
- Model Number: 300 WSM NO Go
- Style: No Go Gauge
- Weight: 0.2 lbs
- Width: 2"
- Delivery weight: 0.05kg
- Shipping width: 57mm
- Shipping length: 89mm

Safety Instruction Guide for RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 300 WSM NO GO GAUGE

Introduction

Thank you for choosing the RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 300 WSM NO GO GAUGE. This guide provides essential safety instructions, usage precautions, and disposal information to ensure your safe and effective use of this product. Please read this document carefully before using the gauge.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always handle firearms and ammunition responsibly and in compliance with local laws and regulations.
- Store the gauge in a dry, secure place away from children and unauthorized users.
- Regularly inspect the gauge for any signs of wear or damage before use.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- **Proper Use:** Use the NO GO gauge only to check chamber depth in firearms for which it is designed. Do not use it for any other purpose.
- **Mixing Brands:** Do not mix headspace gauges from different manufacturers. Using gauges from different brands can lead to inaccurate readings due to tolerance stacking.
- **Gauge Compatibility:** Ensure that you use the gauge that corresponds to the specific caliber of your firearm. For example, if you have a Forster, .308 GO gauge, use a Forster, .308 NO GO gauge.
- **Inspection:** Before each use, inspect the gauge for any damage or defects. If any issues are found, do not use the gauge.
- **Storage:** After use, store the gauge in its protective case to prevent damage and ensure longevity.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and equipment for checking headspace.

2. Using the NO GO Gauge:

- Insert the NO GO gauge into the chamber of the firearm.
- Attempt to close the bolt. If the bolt does not close completely, the chamber depth is acceptable.
- If the bolt closes completely, this indicates excessive chamber depth and potential safety hazards.

3. Using the GO Gauge:

- For initial checks, use the GO gauge to confirm the minimum chamber depth.
- Insert the GO gauge into the chamber and ensure the bolt closes completely.
- If the bolt does not close, the chamber depth is below the minimum specification.

4. Recording Measurements:

- Document any measurements or observations for future reference.

- If using multiple gauges, ensure they are of the same brand to maintain accuracy.

5. PostUse:

- Clean the gauge after use to remove any debris or residue.
- Store the gauge in a dry, secure location.

Disposal Instructions

- Dispose of the gauge and any associated materials in accordance with local regulations.
- If the gauge is damaged or no longer functional, consider recycling materials when possible.
- Do not dispose of the gauge in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any inquiries regarding the safety or usage of the RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 300 WSM NO GO GAUGE, please refer to the manufacturer's contact information provided with the product packaging.

Conclusion

Following these safety instructions will help ensure your safe use of the RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 300 WSM NO GO GAUGE. Always prioritize safety and compliance with local regulations when handling firearms and related equipment. Thank you for your attention to these guidelines.
