Determine Correct Headspace

MANSON PRECISION RIMLESS CARTRIDGE HEADSPACE GAUGES The Manson Precision Rimless Cartridge Headspace Gauges enable gunsmiths and firearm enthusiasts to verify the headspace of rimless cartridges, ensuring firearms are safe to fire. Proper headspace is critical for reliable chambering, ignition, and extraction of cartridges, preventing potential malfunctions or safety hazards. These gauges are essential for chambering new barrels, performing routine maintenance, or evaluating used firearms. **Key Features:** **Precision Machining:** Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. **Caliber Specificity:** Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. **Durable Construction:** Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. **Specifications:** **Material:** Hardened steel **Dimensions:** Size varies with caliber and gauge style **Compliance:** Manufactured to SAAMI specifications **Customer Insights:** Customers value the Manson Precision Rimless Cartridge Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Manson Precision Rimless Cartridge Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [MANSON PRECISION 8MM MAUSER \(8X57MM\) GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [MANSON PRECISION](#)
- Product no.: 513100922
- Mfr. No.: NONE
- Cartridge: 8 mm Mauser (8 x 57 mm Mauser)
- Colour: Steel
- Height: 2"
- Length: 2"
- Material: Steel
- Model Number: 8mm Mauser (5x57mm) GO
- Style: Go Gauge
- Weight: 0.2 lbs
- Width: 2"
- Delivery weight: 0.036kg
- Shipping height: 13mm
- Shipping width: 57mm
- Shipping length: 89mm

RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 8MM MAUSER (8X57MM) GO GAUGE HEADSPACE GAUGE STEEL Safety Instruction Guide

Introduction

This safety instruction guide is designed to ensure the safe use of the Manson Precision 8mm Mauser (8x57mm) Go Gauge Headspace Gauge Steel. It provides important safety information, guidelines for use, and instructions for proper handling and disposal. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure the product is used in accordance with the manufacturer's instructions.
- Always handle firearms and related equipment with care and respect.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the gauge for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Proper Measurement:** Use the Go gauge to check the minimum chamber depth as recommended by SAAMI. Ensure the gauge is compatible with your specific firearm.
- **Avoid Mixing Brands:** Do not mix headspace gauge brands. Stick to one brand within a particular caliber to prevent inaccurate readings.
- **Use Correctly:** Ensure the gauge is inserted properly into the chamber. If resistance is felt, do not force the gauge. This may indicate an unsafe condition.
- **Regular Calibration:** Periodically check the accuracy of your gauges against known standards to ensure they are functioning correctly.
- **Emergency Protocol:** If you suspect a firearm is unsafe to fire, do not attempt to use it. Seek professional assistance.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and in a safe condition before using the gauge.
- Clean the chamber of the firearm to remove any debris that may affect measurement accuracy.

2. Using the Go Gauge:

- Insert the Go gauge into the chamber of the firearm.
- Ensure it fits snugly but does not require excessive force to insert.
- If the gauge fits properly, the chamber depth is within the SAMMI recommended specifications.

3. Using the NO/GO Gauge:

- After confirming the Go gauge fits, insert the NO/GO gauge.
- If the NO/GO gauge fits, this indicates excessive chamber depth and potential safety concerns. Do not fire the firearm in this condition.

4. PostUse Care:

- After use, clean the gauge to remove any residue.
- Store the gauge in a protective case to prevent damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding metal and hazardous materials.
- Do not throw the gauge in regular household waste. Instead, contact local waste management for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product concerns, please refer to the manufacturer's contact information provided with the product packaging.

By following these guidelines, you can ensure the safe and effective use of the Manson Precision 8mm Mauser (8x57mm) Go Gauge Headspace Gauge Steel. Always prioritize safety and adhere to best practices in firearm maintenance and measurement.
