Determine Correct Headspace

MANSON PRECISION RIMLESS CARTRIDGE HEADSPACE GAUGES The Manson Precision Rimless Cartridge Headspace Gauges enable gunsmiths and firearm enthusiasts to verify the headspace of rimless cartridges, ensuring firearms are safe to fire. Proper headspace is critical for reliable chambering, ignition, and extraction of cartridges, preventing potential malfunctions or safety hazards. These gauges are essential for chambering new barrels, performing routine maintenance, or evaluating used firearms. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Manson Precision Rimless Cartridge Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Manson Precision Rimless Cartridge Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [MANSON PRECISION 8MM MAUSER \(5X57MM\) NO GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [MANSON PRECISION](#)
- Product no.: 513100923
- Mfr. No.: NONE
- Cartridge: 8 mm Mauser (8 x 57 mm Mauser)
- Colour: Steel
- Height: 2"
- Length: 2"
- Material: Steel
- Model Number: 8mm Mauser (5x57mm NO GO
- Style: No Go Gauge
- Weight: 0.2 lbs
- Width: 2"
- Delivery weight: 0.036kg
- Shipping height: 1mm
- Shipping width: 57mm
- Shipping length: 89mm

RIMLESS CARTRIDGE HEADSPACE GAUGES MANSON PRECISION 8MM MAUSER (5X57MM) NO GO GAUGE SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the RIMLESS CARTRIDGE HEADSPACE GAUGE by MANSON PRECISION. This guide provides essential safety instructions to ensure the proper and safe use of your headspace gauge. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of firearms and the importance of headspace measurements.
- Always adhere to the manufacturer's specifications and guidelines when using headspace gauges.
- Use the headspace gauge in a welllit, controlled environment to avoid accidents.
- Keep the product out of reach of children and individuals who are not trained in firearm safety.
- Regularly inspect the gauge for any signs of wear or damage before use.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Use the Correct Gauge:** Always use the appropriate headspace gauge for your specific firearm caliber. This gauge is designed for 8 mm Mauser (8 x 57 mm Mauser).
- **Avoid Mixing Brands:** Do not mix headspace gauges from different manufacturers. Tolerance stacking can lead to inaccurate readings and unsafe conditions.
- **Handle with Care:** Treat the gauge with respect. Avoid dropping or mishandling it, as this may affect its precision.
- **Check for Wear:** Before each use, inspect the gauge for any signs of wear or damage. If any issues are found, do not use the gauge.
- **Follow GO and NO/GO Guidelines:** Understand the difference between GO and NO/GO gauges. The GO gauge indicates the minimum chamber depth, while the NO/GO gauge helps identify excessive chamber depth.

Instructions for Installation and Usage

1. **Prepare Your Firearm:** Ensure that the firearm is unloaded and in a safe condition before attempting to measure headspace.
2. **Insert the Gauge:** Carefully insert the headspace gauge into the chamber of the firearm. Ensure it is seated properly.
3. **Check the Fit:**
 - If the GO gauge fits, the chamber is within safe specifications.
 - If the NO/GO gauge fits, it indicates excessive chamber depth and may signify an unsafe condition. Do not use the firearm until it has been checked by a qualified gunsmith.
4. **Record Measurements:** Take note of the measurements for future reference and safety checks.
5. **Clean the Gauge:** After use, clean the gauge to remove any debris or residue, ensuring it remains in good condition for future use.

Disposal Instructions

- Dispose of the headspace gauge responsibly. If the gauge is damaged or no longer usable, follow local regulations for disposing of metal products.

- Do not throw the gauge in regular household waste. Instead, consider recycling options or contacting a local waste management facility for guidance.

Contact Information for Further Support

For any questions or concerns regarding the use of your headspace gauge, please consult the manufacturer's website or contact their customer service directly for assistance.

By following these guidelines, you can ensure safe and effective use of the RIMLESS CARTRIDGE HEADSPACE GAUGE by MANSON PRECISION. Always prioritize safety and adhere to best practices when handling firearms and related equipment.
