Determine Correct Headspace

MANSON PRECISION RIMMED CARTRIDGE HEADSPACE GAUGE The Manson Precision Rimmed Cartridge Headspace Gauges are essential tools for gunsmiths and firearm enthusiasts, designed to accurately measure the headspace of rimmed cartridges. Proper headspace is crucial for the safe and reliable operation of firearms, and these gauges ensure that your firearm's chamber dimensions are within the specified tolerances. Key Features: Precision Measurement: Crafted to exacting standards, these gauges provide accurate headspace measurements for rimmed cartridges, ensuring optimal firearm performance. Durable Construction: Made from M7 high-speed steel, these gauges are hardened and finished in-the-white, offering long-lasting durability and resistance to wear. Compatibility: Designed to be used with corresponding brands, it's recommended to use Manson Precision gauges with Manson Precision reamers to maintain consistency and accuracy in measurements. Specifications: Material: M7 high-speed steel Finish: In-the-white Cartridge Compatibility: Available for various rimmed cartridges; specific options can be selected based on your requirements. Customer Insights: Users have rated the Manson Precision Rimmed Cartridge Headspace Gauges highly, with an average rating of 5.0 out of 5. Customers appreciate the precision and quality of these gauges, noting their importance in ensuring firearm safety and functionality. Incorporating the Manson Precision Rimmed Cartridge Headspace Gauges into your gunsmithing toolkit provides you with reliable and accurate tools to maintain and verify the headspace of your rimmed cartridge firearms, promoting safety and performance.

Attributes

- Name: [MANSON PRECISION 12 GAUGE NO GO GAUGE](#)
- Manufacturer: [MANSON PRECISION](#)
- Product no.: 513110121
- Mfr. No.: NG12
- Cartridge: 12 Gauge
- Colour: Steel
- Height: 0.788"
- Length: 2.52"
- Material: Steel
- Model Number: No Go Gauge 12Ga
- Style: No Go Gauge
- Weight: 0.1 lbs
- Width: 0.788"
- Delivery weight: 0.077kg
- Shipping height: 13mm
- Shipping width: 57mm
- Shipping length: 89mm

MANSON PRECISION 12 GAUGE NO GO GAUGE

Safety Instruction Guide

Introduction

Thank you for choosing the Manson Precision 12 Gauge No Go Gauge. This guide provides essential safety information and instructions for the proper use of this product. Please read this guide carefully to ensure safe handling and operation.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always handle firearms and related equipment with care.
- Regularly inspect the headspace gauge for any signs of wear or damage before use.
- Keep the gauge out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Use One Brand:** Always use headspace gauges from the same manufacturer for accurate readings. Mixing brands can lead to tolerance stacking and inaccurate measurements.
- **Proper Measurement:** Understand the difference between the GO and NO/GO gauges. The GO gauge indicates the minimum safe chamber depth, while the NO/GO gauge indicates excessive chamber depth.
- **Check Compatibility:** Ensure that the gauge is compatible with the firearm you are using. Refer to the manufacturer's specifications if in doubt.
- **Avoid Modifications:** Do not modify the gauge in any way. Alterations can compromise safety and accuracy.
- **Store Properly:** After use, store the gauge in a safe, dry place to prevent damage.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and equipment before starting.

2. Using the GO Gauge:

- Insert the GO gauge into the chamber of the firearm.
- The gauge should fit without resistance. If it does not fit, consult a qualified gunsmith.

3. Using the NO/GO Gauge:

- Insert the NO/GO gauge into the chamber after verifying the GO gauge fits correctly.
- The NO/GO gauge should not fit into the chamber. If it does fit, this indicates excessive chamber depth and may render the firearm unsafe to use. Consult a qualified gunsmith.

4. Post Use:

- Clean the gauge after use to remove any debris or residue.

- Store the gauge in its protective case to prevent damage.

Disposal Instructions

- Dispose of the gauge in accordance with local regulations.
- Do not dispose of the gauge in regular household waste. Instead, follow the guidelines for hazardous materials if applicable.

Contact Information for Further Support

For any questions or concerns regarding the use of the Manson Precision 12 Gauge No Go Gauge, please refer to the manufacturer's contact details provided with your product packaging. It is important to have access to support for any safety inquiries.

By following these guidelines, you can ensure safe and effective use of your Manson Precision 12 Gauge No Go Gauge. Always prioritize safety and consult professionals when in doubt. Thank you for your attention to these important safety measures.
