# LEWIS LEAD REMOVER FOR RIFLES & SHOTGUNS SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the Lewis Lead Remover for Rifles & Shotguns by Brownells. This product is designed to effectively remove lead and wad fouling from your firearm without damaging the bore or rifling. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

To ensure your safety while using the Lewis Lead Remover, please follow these general guidelines:

- Always read and follow the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose.
- Inspect the product before each use. Do not use if damaged.
- Store the product in a cool, dry place away from direct sunlight.
- Dispose of any used materials according to local regulations.

## Specific Safety Precautions for Use

When using the Lewis Lead Remover, please observe the following safety precautions:

- Ensure that the firearm is unloaded before using the lead remover.
- Always wear safety glasses to protect your eyes from debris and cleaning agents.
- Use gloves to protect your hands from lead and cleaning residues.
- Avoid inhaling any dust or fumes that may be generated during use.
- Do not use the product on firearms that are not suitable for lead removal.
- Follow up with a bore cleaner, such as JB Bore Cleaner, to ensure a thorough cleaning.

## Instructions for Installation and Usage

To effectively use the Lewis Lead Remover, please follow these steps:

### 1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather all necessary tools, including the Lewis Lead Remover kit and a cleaning rod with 832 threads.

### 2. Attaching the Tips:

- Select the appropriate tip for your cleaning rod.
- Attach the rubber tip with 832 threads to the cleaning rod securely.

### 3. Using the Brass Patches:

- Take a specially woven brass patch and attach it to the rubber tip.
- Insert the cleaning rod with the attached patch into the bore of the firearm.

### 4. Cleaning Process:

- Gently push the rod through the bore to remove lead and plastic deposits.

- Repeat the process as necessary until the bore is clean.
- Ensure that no damage is done to the rifling or bore during cleaning.

#### **5. Final Cleaning:**

- After using the lead remover, follow with JB Bore Cleaner to achieve a truly clean bore.
- Clean any remaining debris or residue from the firearm.

## **Disposal Instructions**

Proper disposal of the product and any used materials is essential:

- Dispose of used brass patches and any cleaning residues according to local waste disposal regulations.
- Do not dispose of the product in regular household waste. Check local regulations for hazardous waste disposal if applicable.

## **Contact Information for Further Support**

For any inquiries regarding safety or product usage, please refer to the manufacturer's contact information provided with the product packaging. It is important to have access to assistance for any safetyrelated questions.

Thank you for your attention to these safety instructions. Enjoy using your Lewis Lead Remover safely and effectively!
