

ACCUSIGHT: PISTOL SIGHT INSTALLATION TOOL - LYMAN

ACCUSIGHT: PISTOL SIGHT INSTALLATION TOOL

[Gunsmith Tools](#) > [Sight & Scope Installation Tools](#) > [Sight Movers](#)

Lyman's new AccuSight Pistol Sight Tool sets the standard by which all others will be judged! Proudly made right here in our Middletown CT plant, the AccuSight tool is CNC machined from billet aluminum. It can adjust, install or remove front or rear dovetail pistol sights, and has a machined pocket for 1911 slides. The AccuSight features 4 horizontal and 1 vertical slide clamps, full range height adjustment, and 1/32" increment windage adjustment scale on the sight pusher. The large sight pusher handle provides plenty of torque to move even the most stubborn sights. The AccuSight Pistol Sight Tool is a must for gunsmiths, competition shooters, or anyone who wants to properly work on pistol sights. Adjusts, install or remove dovetail pistol sights CNC machined aluminum body 4 horizontal and 1 vertical slide clamps 1/32" increment adjustment scale Large sight pusher handle allows moving stubborn sights Works with most pistols with front or rear dovetailed sights

Safety Instruction Guide for Lyman AccuSight Pistol Sight Installation Tool

Introduction

Thank you for choosing the Lyman AccuSight Pistol Sight Installation Tool. This guide provides essential safety information and instructions to ensure the safe and effective use of the tool. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as outlined in this guide.
- Always wear appropriate safety gear, including eye protection, when using the tool.
- Keep the tool out of reach of children and unauthorized users.
- Inspect the tool before each use to ensure it is in good working condition.
- Do not use the tool if it appears damaged or malfunctioning.
- Follow all local laws and regulations regarding firearms and their accessories.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always ensure that the firearm is unloaded before using the AccuSight tool.
- Be aware of your surroundings and ensure that no one is in the line of fire when using the tool.
- Do not place your hands or any body part in the path of the tool's moving parts.
- Use the tool on a stable, flat surface to prevent slipping or tipping.
- Avoid using excessive force, which may damage the tool or the firearm.
- If you are not familiar with firearm maintenance, seek assistance from a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and materials, including the AccuSight tool and the sights to be installed or adjusted.

2. Adjusting the Tool:

- Use the height adjustment feature to align the sight with the firearm.
- Adjust the windage scale to the desired position using the 1/32" increment adjustment scale.

3. Installing or Removing Sights:

- Position the firearm slide securely in the machined pocket of the AccuSight tool.
- Use the horizontal and vertical slide clamps to secure the slide in place.
- To install a sight, align it with the dovetail and slowly push it into place using the large sight pusher handle.
- To remove a sight, reverse the process by gently pushing the sight out of the dovetail.

4. Final Checks:

- After installation or adjustment, doublecheck the sight alignment and ensure that it is secure.
- Clean the area of any debris and store the tool in a safe place.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the tool in regular household waste. Check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For safety inquiries or additional support, please contact the manufacturer or refer to the official website for more information.

By following these guidelines and instructions, you can ensure the safe and effective use of the Lyman AccuSight Pistol Sight Installation Tool. Thank you for your attention to safety.
