

RIFLE CASE LENGTH/HEADSPACE GAUGES - LYMAN RIFLE CASE LENGTH/HEADSPACE GAUGE 260 REMINGTON

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

To achieve the highest degree of safety and accuracy, Lyman recommends that all bottleneck rifle cases be inspected after resizing to ensure that the proper headspace dimension is maintained. The best way to check this critical dimension is with a Lyman case length/headspace gauge. The reloader simply inserts the case into the gauge to insure that it does not exceed the maximum or fall below the minimum allowable headspace. Caution: Any case found with excessive headspace should be destroyed immediately.

Attributes

- Name: [LYMAN RIFLE CASE LENGTH/HEADSPACE GAUGE 260 REMINGTON](#)
- Manufacturer: [LYMAN](#)
- Product no.: 539000215

Lyman Rifle Case Length/Headspace Gauge

Safety Instruction Guide

Introduction

Thank you for choosing the Lyman Rifle Case Length/Headspace Gauge for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of the product. Adhering to these guidelines will help you maintain the highest levels of safety and accuracy while reloading.

General Safety Guidelines

- Always inspect your equipment before use to ensure it is in good working condition.
- Keep the gauge out of reach of children and pets to prevent accidental injury.
- Follow all manufacturer instructions and guidelines when using the gauge.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Inspect Cases After Resizing:** Always inspect all bottleneck rifle cases after resizing to confirm proper headspace dimensions are maintained.
- **Use the Gauge Properly:** Insert the case into the gauge to ensure it does not exceed the maximum or fall below the minimum allowable headspace.
- **Caution with Excessive Headspace:** If a case is found to have excessive headspace, it should be destroyed immediately to prevent potential accidents.
- **Avoid Modifications:** Do not modify the gauge or use it for purposes other than checking headspace.

Instructions for Installation and Usage

1. **Preparation:** Ensure your work area is clean and free from distractions.
2. **Insert the Case:**
 - Take the resized bottleneck rifle case and gently insert it into the Lyman gauge.
 - Ensure the case is fully seated within the gauge.
3. **Check Headspace:**
 - Observe the gauge indicators to determine if the case meets the acceptable headspace specifications.
 - If the case exceeds the maximum or falls below the minimum, set it aside for destruction.
4. **Repeat as Necessary:** Repeat the inspection process for each case you intend to reload.

Disposal Instructions

- Dispose of any cases that have been determined to have excessive headspace in a safe manner.
- Follow local regulations for the disposal of firearms-related materials.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Lyman Rifle Case Length/Headspace Gauge, please refer to the contact information provided by the retailer or manufacturer.

By following these guidelines, you will ensure a safer reloading experience and maintain the integrity of your equipment. Thank you for prioritizing safety while using the Lyman Rifle Case Length/Headspace Gauge.
