

# UNIVERSAL MECHANICAL POWDER MEASURES - LYMAN UNIVERSAL PISTOL MECHANICALPOWDER MEASURE

[Reloading](#) > [Powder Handling](#) > [Powder Measures & Dispensers](#)

The new Lyman reloading press mounted mechanical powder measure will give you all the performance and quality you've come to know and trust from Lyman Products. For 2020 Lyman Products is proud to introduce our new press mounted mechanical powder measure. When using a press mounted powder measure there is no need to have a separate powder measure mounted to your bench saving space and time. The powder measure can be mounted to a wide variety of presses, from single stage to turret to progressive and everything in between. Superior engineering means our powder measure is fully loaded with features. Accuracy within plus or minus a tenth of a grain ( $\pm 0.1$  gr). Powder hopper capacity of 5,000 grains, and integrated powder screen to help keep out any unwanted debris. Powder baffle to ensure consistent and repeatable powder drops. Case actuated operation, with built in compliance to work with varying case lengths. No trimming is required. The rotating barrel is built using deep groove ball bearings, and oil impregnated bronze bushings on all sliding surfaces to insure smooth operation and extended life. All stainless-steel internals for years of worry-free use with minimal wear. Simple disassembly for cleaning and converting from pistol to rifle and rifle to pistol.

# Safety Instruction Guide for Lyman Universal Mechanical Powder Measure

## Introduction

Thank you for choosing the Lyman Universal Mechanical Powder Measure. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of the product. It is important to follow these instructions carefully to prevent accidents and ensure optimal performance.

## General Safety Guidelines

- Always read and understand the product manual before use.
- Ensure that the powder measure is used in a wellventilated area.
- Keep the powder measure out of reach of children and pets.
- Use only compatible powders as specified in the product manual.
- Regularly inspect the powder measure for any signs of wear or damage.
- If you notice any irregularities during operation, stop using the product immediately and refer to the troubleshooting section of the manual.
- Dispose of any powder residues safely and according to local regulations.

## Specific Safety Precautions for Use

- *Handling Powders:*

- Always use caution when handling gun powders. Avoid contact with skin and eyes.
- Store powders in a cool, dry place away from direct sunlight and heat sources.
- Do not smoke or use open flames near the powder measure.

- *Using the Powder Measure:*

- Ensure the powder measure is securely mounted to the reloading press before use.
- Do not attempt to adjust the powder measure while it is in operation.
- Avoid overfilling the powder hopper to prevent spills.

- *Cleaning and Maintenance:*

- Disconnect the powder measure from the reloading press before cleaning.
- Use a soft brush or cloth to clean the powder measure; do not use water or solvents.
- Regularly check for and remove any debris from the powder hopper and measuring mechanism.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is on a stable and level surface.
- Use the provided mounting hardware to securely attach the powder measure to the press.
- Follow the specific instructions in the product manual for your type of press (single stage, turret, or progressive).

### 2. Setup:

- Fill the powder hopper with the appropriate powder, ensuring not to exceed the maximum capacity of 5,000 grains.

- Adjust the powder measure setting according to the desired charge weight, ensuring accuracy within  $\pm 0.1$  grains.

### 3. Operation:

- Place a case in the reloading press and activate the press to drop the powder.
- Monitor the operation closely, ensuring consistent powder drops.
- After each use, check the powder measure for any obstructions or issues.

## Disposal Instructions

- Dispose of any unused or expired powders according to local regulations.
- Recycle the powder measure packaging materials where possible.
- For the powder measure itself, follow local guidelines for electronic waste disposal if applicable.

## Contact Information for Further Support

For any questions or concerns regarding the use of the Lyman Universal Mechanical Powder Measure, please refer to the product manual or reach out to your retailer for assistance.

By following these guidelines, you will ensure a safe and effective reloading experience with your Lyman Universal Mechanical Powder Measure. Thank you for prioritizing safety!
