

# HANDGUN PRO DIE PACKS - LYMAN 9MM LUGER PRO DIE PACK

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Lyman Pro dies will set a new standard for reloading die performance! Designed for the tremendous volume of our Mark 7 presses, every aspect of these precision dies was carefully engineered for top performance. Of course, they work great in regular progressive presses as well as turret and single station presses. Our first consideration was the material of the dies. Our size, seat and crimp dies are all made of stainless steel which was chosen for its toughness and anti-corrosion qualities. No more rusted dies! Our sizing dies are equipped with highly polished carbide rings for the ultimate in wear resistance and reduced sizing force. In addition, the sizing dies are equipped with a springloaded decapping rod system to ensure that the primer is forcefully ejected from the primer pocket. Our rifle sets get our famous M die neck expander, with its famous two step expander plug for just the right amount of neck tension and case mouth flare. The pistol sets include our flare die which are designed to allow bullets to properly sit on the case mouth prior to seating. Next is our Micrometer Seating die. This seating die has a micrometer adjustable seating head for precision bullet seating length. Its floating bullet seating punch centers the bullet on the case and eliminates excessive run-out. Finally, each set is equipped with a taper crimp die (micrometer adjustable) to fully remove any case mouth flare and to provide improved bullet retention. Lyman Pro dies offer more features at a better price than any competitive dies available!

## Attributes

- Name: [LYMAN 9MM LUGER PRO DIE PACK](#)
- Manufacturer: [LYMAN](#)
- Product no.: 539000225
- Mfr. No.: 7701000

# Safety Instruction Guide for Lyman 9mm Luger Pro Die Pack

## Introduction

Thank you for choosing the Lyman 9mm Luger Pro Die Pack. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

## General Safety Guidelines

To ensure your safety and the safety of others, please adhere to the following general safety guidelines:

- Always use the product as intended and follow the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product regularly for any signs of damage or wear.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

When using the Lyman 9mm Luger Pro Die Pack, please follow these specific safety precautions:

- Ensure that you are wearing appropriate personal protective equipment (PPE), such as safety glasses and gloves.
- Do not exceed the recommended specifications for the dies, including maximum loads and materials.
- Always ensure that the workspace is clean, organized, and free from distractions.
- Avoid using the dies if you are tired or under the influence of substances that may impair your judgment.
- Be aware of your surroundings and ensure that others are at a safe distance while operating the equipment.

## Instructions for Installation and Usage

To ensure safe and effective use of the Lyman 9mm Luger Pro Die Pack, please follow these installation and usage instructions:

### 1. Installation:

- Read the product manual thoroughly before installation.
- Ensure that your reloading press is compatible with the Lyman Pro dies.
- Securely mount the dies in the press according to the manufacturer's instructions.
- Check that all components are properly tightened and free of obstructions.

### 2. Usage:

- Before starting, ensure that the workspace is clean and organized.
- Follow the stepbystep instructions provided in the product manual for reloading.
- Check the condition of the dies before each use, ensuring they are free from rust or damage.
- Use the sizing die first to prepare the cases, followed by the seating die for bullet placement.
- Use the taper crimp die to finalize the process, ensuring proper bullet retention.
- After completing the reloading process, store the dies in a dry and safe location.

## **Disposal Instructions**

Proper disposal of the Lyman 9mm Luger Pro Die Pack is important for environmental safety. Please follow these disposal instructions:

- Do not dispose of the product in regular household waste.
- Check local regulations for disposal of metal and plastic components.
- If the product is damaged beyond use, consider recycling parts that can be recycled.
- For any hazardous materials, follow local guidelines for safe disposal.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or product support, please refer to the contact information provided in the product manual or on the manufacturer's website.

By following these safety instructions and guidelines, you can ensure a safe and enjoyable experience with your Lyman 9mm Luger Pro Die Pack. Thank you for your attention to safety.
