

HANDGUN STAINLESS PRO CARBIDE SIZING DIES - LYMAN 45 ACP STAINLESS PRO CARBIDE SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Tungsten carbide sizing dies were pioneered by Lyman, now we have made them even better. Our new Pro Carbide die bodies are made of stainless steel which is noted for its toughness and anti-corrosion qualities. No more rusted dies! Our sizing dies are equipped with highly polished carbide rings for the ultimate in wear resistance and reduced sizing force. The carbide rings have a generous radius on the mouth to allow cases to easily align on progressive presses. Rifle dies also include our super slick carbide expander buttons to reduce case stretch. In addition, the sizing dies are equipped with a spring-loaded decapping rod system to ensure that the primer is force- fully ejected from the primer pocket every time.

Attributes

- Name: [LYMAN 45 ACP STAINLESS PRO CARBIDE SIZING DIE](#)
- Manufacturer: [LYMAN](#)
- Product no.: 539000242

Safety Instruction Guide for HANDGUN STAINLESS PRO CARBIDE SIZING DIES LYMAN 45 ACP STAINLESS PRO CARBIDE SIZING DIE

Introduction

Thank you for choosing the HANDGUN STAINLESS PRO CARBIDE SIZING DIES LYMAN 45 ACP STAINLESS PRO CARBIDE SIZING DIE. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and follow these instructions carefully.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Store all reloading components and tools in a secure location, out of reach of children and unauthorized users.
- Ensure that you are familiar with the reloading process before using this product.
- Regularly inspect your equipment for wear or damage. Do not use damaged or worn components.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the sizing die is compatible with the cartridge you are using (45 Auto (ACP)).
- Always follow the manufacturer's instructions for installation and usage.
- Do not exceed recommended load data when reloading ammunition.
- Use only approved materials and components when using this product.
- Avoid distractions while reloading to maintain focus and accuracy.
- If you are unsure about any aspect of using the sizing die, seek guidance from a knowledgeable source.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is securely mounted and stable.
- Insert the sizing die into the press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during operation.
- Check that the die is properly aligned with the shell holder.

2. Usage:

- Prepare your cases by cleaning and inspecting them for damage before sizing.
- Adjust the sizing die to achieve the desired case dimensions.
- Place the case into the shell holder and activate the press to size the case.
- Ensure that the primer is ejected properly using the springloaded decapping rod system.
- After sizing, inspect the cases for proper dimensions and any signs of damage.

Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Do not dispose of ammunition or reloading components in regular household waste.
- Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the manufacturer's official website or contact their customer service.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and successful reloading experience with the HANDGUN STAINLESS PRO CARBIDE SIZING DIES LYMAN 45 ACP STAINLESS PRO CARBIDE SIZING DIE.
