

# HANDGUN PRO MICROMETER SEATING DIES - LYMAN 38 SUPER PRO MICROMETER SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Our Micrometer Seating Die gives you exact bullet seating length and minimal run-out. The seating die has a micrometer adjustable seating head for precision bullet seating length. If you want to change your bullet seating depth a few thousandths of an inch, simply turn the micrometer head to the required setting. Its floating bullet seating punch centers the bullet on the case and eliminates excessive run-out. Our Micrometer Seating die is also made of corrosion resistant stainless steel which protects it from rust and keeps it looking like new for a lifetime of use.

# **Safety Instruction Guide for HANDGUN PRO MICROMETER SEATING DIES LYMAN 38 SUPER PRO MICROMETER SEATING DIE**

## **Introduction**

Thank you for choosing the HANDGUN PRO MICROMETER SEATING DIES LYMAN 38 SUPER PRO MICROMETER SEATING DIE. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this guide carefully and follow all instructions to minimize risks and enhance your reloading experience.

## **General Safety Guidelines**

To ensure your safety and the safety of others while using this product, please adhere to the following guidelines:

- Always use the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for signs of wear or damage before use.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, during operation.
- Report any unsafe conditions or incidents to the relevant authorities.
- Stay informed about product recalls and safety alerts through the EU's Safety Gate platform.

## **Specific Safety Precautions for Use**

When using the HANDGUN PRO MICROMETER SEATING DIE, please observe the following precautions:

- Ensure that the seating die is properly installed and securely fastened to the reloading press before use.
- Do not exceed the recommended bullet seating depth as indicated in your reloading manual.
- Avoid using the seating die with damaged or defective components.
- Never attempt to adjust the micrometer head while the reloading press is in operation.
- Always ensure that the work area is clean and free of obstructions to prevent accidents.
- If you experience any unusual resistance while seating bullets, stop immediately and check for potential issues.

## **Instructions for Installation and Usage**

To safely install and use the HANDGUN PRO MICROMETER SEATING DIE, follow these steps:

### **1. Installation:**

- Ensure that your reloading press is unplugged or in a safe position.
- Remove any existing dies from the press if necessary.
- Insert the HANDGUN PRO MICROMETER SEATING DIE into the die holder of your reloading press.
- Securely tighten the die in place according to your press's specifications.

### **2. Adjusting the Micrometer:**

- To set the bullet seating depth, turn the micrometer head clockwise to increase depth or counterclockwise to decrease depth.
- Make small adjustments, typically a few thousandths of an inch at a time, to achieve the desired

seating length.

### **3. Seating Bullets:**

- Place a cartridge case in the press and ensure it is properly aligned.
- Insert the bullet into the case mouth, ensuring it is centered.
- Pull the handle of the press to seat the bullet. Monitor for any unusual resistance.

### **4. PostUse Care:**

- After use, clean the die to remove any debris or residue.
- Store the die in a safe, dry place away from moisture and extreme temperatures.

## **Disposal Instructions**

When disposing of the HANDGUN PRO MICROMETER SEATING DIE, please follow these guidelines:

- Do not dispose of the product in regular household waste.
- Check local regulations for proper disposal methods for metal products.
- If the product is damaged beyond repair, consider recycling the metal components where facilities exist.

## **Contact Information for Further Support**

For any questions or concerns regarding the HANDGUN PRO MICROMETER SEATING DIE, please reach out to the relevant contact point in your country as per EU regulations. Ensure you have your product details ready for a more efficient response.

By following these safety instructions, you can ensure a safe and effective reloading experience with your HANDGUN PRO MICROMETER SEATING DIES LYMAN 38 SUPER PRO MICROMETER SEATING DIE. Thank you for prioritizing safety and responsible usage.
