

RIFLE PRO MICROMETER SEATING DIES - LYMAN 6.5 CREEDMOOR PRO MICROMETER SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Our Micrometer Seating Die gives you exact bullet seating length and minimal run-out. The seating die has a micrometer adjustable seating head for precision bullet seating length. If you want to change your bullet seating depth a few thousandths of an inch, simply turn the micrometer head to the required setting. Its floating bullet seating punch centers the bullet on the case and eliminates excessive run-out. Our Micrometer Seating die is also made of corrosion resistant stainless steel which protects it from rust and keeps it looking like new for a lifetime of use.

Safety Instruction Guide for RIFLE PRO MICROMETER SEATING DIES LYMAN 6.5 CREEDMOOR PRO MICROMETER SEATING DIE

Introduction

Thank you for choosing the RIFLE PRO MICROMETER SEATING DIES LYMAN 6.5 CREEDMOOR PRO MICROMETER SEATING DIE. This product is designed for precision bullet seating, ensuring a safe and effective reloading experience. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle the die with care to prevent injury.
- Use the die only for its intended purpose as outlined in this guide.
- Ensure that all components are in good condition before use.
- Keep the die out of reach of children and vulnerable individuals.
- Regularly inspect the die for signs of wear or damage.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Use eye protection when operating the die to prevent injury from debris.
- Ensure your workspace is clean and free of obstructions to avoid accidents.
- Do not exceed the recommended bullet seating depth as specified by the manufacturer.
- Only use bullets that are compatible with the 6.5 Creedmoor cartridge.
- Avoid wearing loose clothing or jewelry that may get caught in the die.
- If you experience any unusual resistance while using the die, stop immediately and inspect for issues.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Remove any existing dies from the press.
- Insert the RIFLE PRO MICROMETER SEATING DIE into the press and tighten it securely.
- Adjust the die to the desired seating depth using the micrometer head.

2. Usage:

- Prepare your cases and bullets according to standard reloading practices.
- Place a case in the shell holder of the reloading press.
- Insert a bullet into the case mouth.
- Slowly raise the ram of the press to seat the bullet.
- Adjust the micrometer head as needed for precise bullet seating depth.
- After each use, clean the die with a soft cloth to remove any residue.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die in regular household waste.
- Check with local recycling programs for proper disposal methods for metal products.

Contact Information for Further Support

For any questions or concerns regarding the RIFLE PRO MICROMETER SEATING DIES LYMAN 6.5 CREEDMOOR PRO MICROMETER SEATING DIE, please refer to the manufacturer's website or customer support for assistance.

By following these safety instructions, you can ensure a safe and effective reloading experience. Always prioritize safety and compliance with regulations for the best results.
