

HANDGUN PRO SERIES MICROMETER TAPER CRIMP DIES - LYMAN 38 SUPER PRO SERIES MICROMETER TAPER CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Lyman's Micrometer Taper Crimp Die gives you exact the amount of crimp that you want. The Taper Crimp Die has a micrometer adjustable head for precise positioning of the floating crimp sleeve. If you want to change your bullet crimp a few thousandths of an inch, simply turn the micrometer head to the required setting. The floating crimp sleeve centers the cartridge and applies a perfect taper crimp. Our Micrometer Taper Crimp Die is also made of corrosion resistant stainless steel which protects it from rust and keeps it looking like new for a lifetime of use.

Safety Instruction Guide for Lyman Handgun Pro Series Micrometer Taper Crimp Die

Introduction

Thank you for choosing the Lyman Handgun Pro Series Micrometer Taper Crimp Die. This product is designed to provide precise crimping for your reloading needs. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle the Taper Crimp Die with care to avoid injury.
- Ensure the die is used in accordance with the manufacturer's instructions.
- Keep the die out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of damage or wear before use.
- Only use the die with compatible cartridges as specified in the product description.
- Be aware of your surroundings and ensure you are in a safe environment when using this product.

Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling reloading equipment.
- Ensure that the micrometer head is securely tightened before use to prevent accidental adjustments during operation.
- Avoid overcrimping, as this can lead to dangerous ammunition that may not function properly.
- Do not modify the die in any way that alters its intended use or safety features.
- Be cautious when adjusting the micrometer head; make small adjustments and check the crimp frequently.
- Store the die in a dry, cool place to prevent corrosion and maintain its functionality.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Insert the Micrometer Taper Crimp Die into the reloading press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during use.

2. Usage:

- Prepare your cartridges and bullets as per your reloading process.
- Set the micrometer head to the desired crimp setting by rotating it to the required measurement.
- Place the cartridge into the die and activate the press to apply the crimp.
- Inspect the crimped cartridge to ensure it meets your specifications.
- If adjustments are needed, carefully adjust the micrometer head and repeat the crimping process.

Disposal Instructions

- When the die reaches the end of its usable life, dispose of it in accordance with local regulations for metal recycling.
- Do not dispose of the die in regular household waste.
- Ensure that all parts of the die are accounted for and disposed of responsibly to prevent environmental

harm.

Contact Information for Further Support

For any inquiries regarding safety or usage of the Lyman Handgun Pro Series Micrometer Taper Crimp Die, please reach out to your local retailer or refer to the manufacturer's website for support.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of your Lyman Handgun Pro Series Micrometer Taper Crimp Die. Always prioritize safety and consult the guide whenever needed. Thank you for your commitment to safe reloading practices.
