

HANDGUN PRO SERIES MICROMETER TAPER CRIMP DIES - LYMAN 380 AUTO PRO SERIES MICROMETER TAPER CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Lyman's Micrometer Taper Crimp Die gives you exact the amount of crimp that you want. The Taper Crimp Die has a micrometer adjustable head for precise positioning of the floating crimp sleeve. If you want to change your bullet crimp a few thousandths of an inch, simply turn the micrometer head to the required setting. The floating crimp sleeve centers the cartridge and applies a perfect taper crimp. Our Micrometer Taper Crimp Die is also made of corrosion resistant stainless steel which protects it from rust and keeps it looking like new for a lifetime of use.

Safety Instruction Guide for Lyman 380 Auto Pro Series Micrometer Taper Crimp Die

Introduction

Thank you for choosing the Lyman 380 Auto Pro Series Micrometer Taper Crimp Die. This product is designed to provide you with precise crimping for your handloading needs. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always follow the manufacturer's instructions for use and maintenance.
- Ensure that the work area is clean, welllit, and free of distractions.
- Keep the die and all reloading equipment out of reach of children and unauthorized users.
- Wear appropriate safety gear, including safety glasses and gloves, when handling reloading components.
- Regularly inspect the die for any signs of wear or damage before use.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper use of the die can lead to personal injury or damage to the firearm.
- Ensure that the die is compatible with your specific firearm and ammunition type.

- **Avoiding Hazards:**

- Always use the die in accordance with the specifications for the 380 Auto cartridge.
- Do not exceed recommended crimp settings; excessive crimping can lead to bullet deformation or malfunction.
- Handle all reloading materials with care to prevent accidental ignition or spills.
- Ensure that the crimp sleeve is properly seated before use to avoid misalignment.

- **AgeSpecific Warnings:**

- This product is intended for use by adults only. Keep it out of reach of children.
- Ensure that inexperienced users are supervised and instructed on safe handling practices.

Instructions for Installation and Usage

1. Installation:

- Secure the die in a reloading press according to the manufacturer's instructions.
- Adjust the micrometer head to the desired crimp setting for your specific bullet type.
- Ensure that the floating crimp sleeve is correctly positioned to center the cartridge.

2. Usage:

- Begin by inserting a cartridge case into the die.
- Slowly lower the press handle to apply the crimp.
- Check the crimp visually to ensure it is applied evenly around the bullet.
- If adjustments are needed, turn the micrometer head slightly and repeat the crimping process.

3. Maintenance:

- Clean the die after each use to remove any residue.
- Store the die in a dry place to prevent corrosion.

Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Do not dispose of the die in regular household waste; check for recycling options or hazardous waste disposal facilities in your area.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of the Lyman 380 Auto Pro Series Micrometer Taper Crimp Die, please refer to the manufacturer's contact information provided with the product packaging.

Thank you for prioritizing safety while using our product. Enjoy your reloading experience!
