

# RIFLE PRO SERIES MICROMETER TAPER CRIMP DIES - LYMAN 6.5 CREEDMOOR PRO SERIES MICROMETER TAPER CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Lyman's Micrometer Taper Crimp Die gives you exact the amount of crimp that you want. The Taper Crimp Die has a micrometer adjustable head for precise positioning of the floating crimp sleeve. If you want to change your bullet crimp a few thousandths of an inch, simply turn the micrometer head to the required setting. The floating crimp sleeve centers the cartridge and applies a perfect taper crimp. Our Micrometer Taper Crimp Die is also made of corrosion resistant stainless steel which protects it from rust and keeps it looking like new for a lifetime of use.

# Safety Instructions for Lyman 6.5 Creedmoor Pro Series Micrometer Taper Crimp Die

## Introduction

Thank you for choosing the Lyman 6.5 Creedmoor Pro Series Micrometer Taper Crimp Die. This product is designed to provide precise crimping for your ammunition needs. To ensure your safety and the optimal performance of the die, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always use the die in a wellventilated area to avoid inhaling any dust or debris.
- Keep the die and all components out of reach of children and unauthorized users.
- Inspect the die for any signs of damage or wear before each use. Do not use if damaged.
- Wear appropriate safety gear, including safety glasses and gloves, when using this product.
- Ensure that your work area is clean and free from clutter to prevent accidents.

## Specific Safety Precautions for Use

- Handle the die with care to prevent injury from sharp edges or moving parts.
- Do not exceed the recommended crimp settings, as this may lead to unsafe ammunition.
- Always ensure that the crimp sleeve is properly adjusted before use to avoid improper crimping.
- Do not attempt to modify the die or its components in any way.
- If you experience any unusual resistance or difficulty while using the die, stop immediately and inspect for issues.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Insert the Micrometer Taper Crimp Die into the press and tighten it according to the manufacturer's specifications.
- Adjust the die to the desired height using the micrometer head for precise positioning.

### 2. Usage:

- Prepare your cartridge by ensuring it is clean and free of defects.
- Place the cartridge in the die and activate the press to apply the crimp.
- After crimping, inspect the cartridge to ensure the crimp is uniform and meets your specifications.
- If adjustments are needed, turn the micrometer head to the desired setting and repeat the crimping process.

## Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the die is no longer usable, follow local guidelines for the disposal of metal products.
- Do not dispose of the die in regular household waste if it is damaged or contains hazardous materials.

## Contact Information for Further Support

For any safety inquiries or further assistance regarding the Lyman 6.5 Creedmoor Pro Series Micrometer Taper

Crimp Die, please refer to the manufacturer's contact details provided with the product packaging.

By following these safety instructions, you can ensure a safe and effective reloading experience. Always prioritize safety and consult the manual for any additional information regarding the use of this product. Thank you for your attention to these important guidelines.
