Speed Up & Simplify Pillar Bedding Installations

Piloted counterbores allow you to accurately drill stocks with existing screw holes for pillar bedding, with no fear of the cutter wandering. Interchangeable pilots provide increased versatility, allowing two cutters to do the work of six. Makes adding pillar bedding blocks quick and easy. Pilots and cutters available in popular sizes to accommodate most bedding needs.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) such as safety goggles, gloves, and hearing protection while using the counterbore.
- Ensure that the work area is clean, welllit, and free of any hazards.
- Secure the workpiece properly before starting to drill.
- Do not exceed the recommended speed and feed rates for the counterbore.
- Avoid placing hands or any body parts near the cutting area during operation.
- Do not attempt to modify or repair the product yourself.
- Always use the correct pilot and cutter sizes for your application.
- Ensure that the cutter is securely attached to the pilot before use.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials.
- Ensure that the counterbore, pilots, and cutters are clean and free from debris.

2. Installation

- Select the appropriate pilot and cutter for your application.
- Insert the pilot into the counterbore shank and tighten securely.
- Ensure that the cutter is properly attached to the pilot.

3. Usage

- Position the counterbore over the existing screw hole in the workpiece.
- Start drilling at a low speed to ensure accuracy.
- Gradually increase the speed as needed, ensuring that the cutter remains stable.
- Maintain a steady pressure while drilling; do not force the tool.
- Once the desired depth is achieved, withdraw the counterbore carefully.

4. PostUse Care

- Clean the counterbore, pilots, and cutters after use to prevent rust and debris buildup.
- Store the product in a safe and dry place, away from children and pets.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste.
- Consider recycling options for metal components where applicable.
