Safety Instruction Guide for EXPRESS BLUE #1 MARK LEE 4 OZ.

Introduction

Thank you for choosing EXPRESS BLUE #1 by Mark Lee. This product is designed to provide highquality bluing solutions for your needs. It is important to follow the safety instructions outlined in this guide to ensure safe and effective use.

General Safety Guidelines

- Always read and understand the product label and safety instructions before use.
- Ensure that the product is used in a wellventilated area to minimize inhalation of fumes.
- Keep the product out of reach of children and pets.
- Avoid contact with skin and eyes. In case of contact, rinse thoroughly with water and seek medical attention if irritation persists.
- Do not ingest. If swallowed, seek medical help immediately.
- Follow all local regulations regarding the use and disposal of chemicals.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) including gloves, goggles, and a mask when handling the product.
- Use a heat gun or propane torch carefully, ensuring that you do not exceed the recommended temperature of 150°200°F.
- Do not use the product near open flames or high heat sources.
- Ensure that boiling water is handled with care to avoid burns or scalds.
- Be aware of the potential for chemical reactions with other substances. Do not mix with other chemicals unless specified in the instructions.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the work area is clean and free from clutter.
- Gather all necessary materials, including the heat gun/propane torch, boiling water, and soft wire wheel or fine steel wool.

2. Application:

- Heat the item to be blued using a heat gun or propane torch until it reaches a temperature between 150°200°F.
- Swab the EXPRESS BLUE #1 solution onto the heated item.
- Immerse the item in boiling water for 5 minutes.
- After boiling, use a soft wire wheel or fine steel wool to card the item.
- Repeat the application of the solution and boiling process until the desired color is achieved.

3. Neutralization:

- Once the desired color is achieved, follow the neutralization instructions included with the product to complete the process.

Disposal Instructions

- Dispose of any unused product and empty containers in accordance with local regulations.
- Do not pour down the drain or dispose of in regular household waste.
- Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the product label or your local distributor.

By following these guidelines, you can ensure a safe and effective experience with EXPRESS BLUE #1 by Mark Lee. Thank you for your attention to safety.
