Safety Instruction Guide for STUCK CHOKE REMOVAL TOOL

Introduction

Thank you for choosing the STUCK CHOKE REMOVAL TOOL by BROWNELLS. This tool is designed to help you safely remove stuck chokes from your shotgun. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the tool is used only for its intended purpose of removing stuck chokes from 12 and 20 gauge shotguns.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, while using the tool.
- Keep the tool out of reach of children and unauthorized users.
- Inspect the tool before each use for any signs of damage or wear. Do not use if damaged.
- Be aware of your surroundings and ensure that no one is in close proximity while using the tool.
- Follow all local laws and regulations regarding the use of firearms and related tools.

Specific Safety Precautions for Use

- Caution: Muzzle damage can result if the tool is used incorrectly. Always ensure that the shotgun is pointed in a safe direction.
- Do not apply excessive force when using the tool, as this may cause damage to the shotgun or the tool itself.
- Ensure that the shotgun is unloaded before attempting to use the tool.
- Use the tool only on the specified gauge (12 or 20 gauge) as indicated.
- Keep hands and other body parts away from the gripping surface while the tool is in use.

Instructions for Installation and Usage

1. Preparation:

- Ensure the shotgun is unloaded and pointed in a safe direction.
- Gather your tools and PPE.

2. Using the Tool:

- Select the appropriate gauge tool (12 or 20 gauge).
- Insert the tool into the choke that is stuck, ensuring a secure fit.
- Apply steady and even force to the tool to grip the choke. Avoid sudden jerks or excessive force.
- Turn the tool counterclockwise to loosen the choke. If resistance is met, reassess the grip and apply additional force as necessary.
- Once the choke is loosened, remove it carefully from the shotgun.

3. After Use:

- Clean the tool after each use and store it in a safe place.
- Inspect the tool for any damage and report any issues if necessary.

Disposal Instructions

- Dispose of the tool in accordance with local regulations for metal waste.
- Do not dispose of the tool in regular household waste.
