

SANDING DISCS - VSM ABRASIVES CORPORATION 8" (20.3CM) DISCS, 60 GRIT

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Sanding Discs](#)

Resinal Metalite Pressure-Sensitive Discs ... Fast Off/On Disc And Grit Change

Lay flatter, stick smoother than glue-on type with no glue lumps, giving much longer disc life with no high spots to wear down first. Edges stay down stopping "catch-and-tear" problems. Much easier and faster to change, with no cleanup between grit changes, and no cleanup of the sander. Special surface, resin bonded to the heavy cloth backing, prevents loading up of disc and drag-off of grit, so stays cutting longer and faster without clogging. For coarse-to-fine metal finishing, and all wood finishing. Sold in packs of 3 discs each.

Attributes

- Name: [VSM ABRASIVES CORPORATION 8" \(20.3CM\) DISCS, 60 GRIT](#)
- Manufacturer: [VSM ABRASIVES CORPORATION](#)
- Product no.: 591080060

Safety Instruction Guide for VSM Abrasives Corporation 8" (20.3cm) Sanding Discs, 60 Grit

Introduction

Thank you for choosing VSM Abrasives Corporation Sanding Discs. These discs are designed for efficient sanding and finishing of various materials, including metal and wood. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the instructions before using the sanding discs.
- Ensure that the sanding discs are compatible with your sander.
- Inspect the sanding discs for any damage before use. Do not use damaged discs.
- Keep the workspace clean and free from hazards.
- Use appropriate personal protective equipment (PPE) such as safety goggles, dust masks, and hearing protection.
- Be aware of your surroundings and avoid distractions while using the sanding discs.

Specific Safety Precautions for Use

• Hazard Identification:

- Dust: Sanding generates dust that may be harmful if inhaled. Always wear a dust mask.
- Injury: The sanding discs can cause injuries if they come into contact with skin. Wear protective gloves.
- Noise: Power tools can produce high noise levels. Use hearing protection to prevent hearing loss.

• Avoiding Hazards:

- Ensure that the sander is switched off before changing discs.
- Do not exceed the maximum RPM rating of the sanding discs.
- Always secure the workpiece properly to prevent movement during sanding.
- Avoid excessive pressure on the sander to prevent overheating and damage to the discs.
- Do not use the sanding discs for applications other than those specified.

Instructions for Installation and Usage

1. Installation:

- Ensure the sander is unplugged or turned off.
- Remove any old sanding disc from the sander.
- Clean the sander's backing pad to ensure a good bond with the new disc.
- Align the new sanding disc with the backing pad and press firmly to adhere.
- Ensure that the disc is centered and securely attached before use.

2. Usage:

- Start the sander at a low speed to ensure stability.
- Gradually increase the speed to the recommended RPM for the sanding discs.
- Move the sander in a consistent motion across the surface, avoiding staying in one spot for too

long.

- Regularly check the sanding disc for wear and replace it as needed.
- After use, turn off the sander and unplug it before changing discs or cleaning.

Disposal Instructions

- Dispose of used sanding discs in accordance with local regulations.
- Do not dispose of sanding discs in regular household waste if they contain hazardous materials.
- Consider recycling options where available.

Contact Information for Further Support

For any inquiries regarding safety or product information, please contact your local distributor or visit the VSM Abrasives Corporation website.

Remember, safety is a priority. By following these guidelines, you can ensure a safe and effective experience with VSM Abrasives Corporation Sanding Discs. Thank you for your attention to these important safety instructions.
