

SANDING DISCS - VSM ABRASIVES CORPORATION 8" (20.3CM) DISCS, 120 GRIT

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Sanding Discs](#)

Resinal Metalite Pressure-Sensitive Discs ... Fast Off/On Disc And Grit Change

Lay flatter, stick smoother than glue-on type with no glue lumps, giving much longer disc life with no high spots to wear down first. Edges stay down stopping "catch-and-tear" problems. Much easier and faster to change, with no cleanup between grit changes, and no cleanup of the sander. Special surface, resin bonded to the heavy cloth backing, prevents loading up of disc and drag-off of grit, so stays cutting longer and faster without clogging. For coarse-to-fine metal finishing, and all wood finishing. Sold in packs of 3 discs each.

Attributes

- Name: [VSM ABRASIVES CORPORATION 8" \(20.3CM\) DISCS, 120 GRIT](#)
- Manufacturer: [VSM ABRASIVES CORPORATION](#)
- Product no.: 591080120

Safety Instruction Guide for VSM Abrasives Corporation 8" (20.3CM) Sanding Discs, 120 Grit

Introduction

Thank you for choosing VSM Abrasives Corporation Sanding Discs. These discs are designed for efficient sanding and finishing of various materials, including metals and wood. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always read and understand the product instructions before use.
- Ensure that the sanding discs are compatible with your sanding tool.
- Inspect the discs for any damage before use; do not use if they are worn or damaged.
- Keep the working area clean and free of distractions.
- Use personal protective equipment (PPE) such as goggles, masks, and gloves to protect against dust and debris.
- Keep children and pets away from the work area.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure the sanding tool is powered off and unplugged when changing discs.
- Always secure the sanding disc properly to avoid it coming loose during operation.
- Do not exceed the maximum RPM rating of the sanding discs.
- Avoid applying excessive pressure; let the tool do the work.
- Use appropriate ventilation to minimize inhalation of dust and particles.
- Be cautious of sharp edges and debris that may be produced during sanding.
- Do not use the discs for purposes other than intended.

Instructions for Installation and Usage

1. Installation:

- Ensure the sanding tool is unplugged.
- Remove any existing disc from the tool.
- Align the new sanding disc with the tool's backing pad.
- Secure the disc according to the tool's instructions (e.g., using a locking mechanism or adhesive).
- Doublecheck that the disc is firmly attached.

2. Usage:

- Plug in and power on the sanding tool.
- Adjust the speed setting according to the material being sanded.
- Begin sanding at a low speed to avoid damage to the material.
- Gradually increase speed as needed, maintaining a steady and even pressure.
- Regularly check the disc for wear and replace as necessary.
- When finished, power off and unplug the tool before removing the disc.

Disposal Instructions

- Dispose of used sanding discs in accordance with local regulations.
- Do not dispose of sanding discs in regular household waste if they contain hazardous materials.

- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the safe use of VSM Abrasives Corporation Sanding Discs, please refer to the contact information provided with your product packaging or visit the official VSM Abrasives Corporation website.

Thank you for prioritizing safety while using VSM Abrasives Corporation Sanding Discs. Your attention to these guidelines will help ensure a safe and effective sanding experience.
